

CHURCH DEDICATED.

New Cathedral, at Peoria, Ill.,
Formally Consecrated
For Service.

BISHOP O'REILLY OFFICIATED

Other Clergymen Assisted—Service
Commemorated 25th Anniversary of
Creation of Diocese—Opened Bishop
Spalding's Silver Jubilee.

Peoria, Ills., April 30.—St. Mary's cathedral was consecrated yesterday forenoon, according to the form prescribed by the Roman Catholic church. The service began at 6 o'clock and was concluded at 11 o'clock. The public was excluded until the ceremony was nearly completed, in order that there should be no interruption. Rt. Rev. P. J. O'Reilly, auxiliary bishop of the diocese of Peoria, was the consecrator, and was assisted by Father Edwards, deacon; Father Cornelius, sub-deacon; Father Greve, arch priest; Fathers Durkin and O'Neill, and assisting priests. Fathers Samon, Cummings, Fannen, Walters, Otto, Sullivan and Monville. The service is of especial interest as commemorating the Twenty-fifth anniversary of the creation of the diocese of Peoria and the first of the exercises in celebration of the silver jubilee of Bishop John Lancaster Spalding, which will be celebrated next Thursday.

GIFT TO TUSKEGEE SCHOOL.

Atlanta Postmaster, While With Ogden Party, Gave Bookers Washington \$1,000 Check.

Tuskegee, Ala., April 30.—The Ogden party reached Tuskegee early yesterday and were driven to the Alabama conference college, where they were given a reception under a huge oak tree on the campus. Following this, they visited the Tuskegee Normal and Industrial Institute, Booker T. Washington's school for colored students. Besides the Ogden party there were present Governor Jelks of Alabama; Postmaster Atkinson, of Atlanta, and President Charles A. Wickensham, of the Atlanta and West Point railway.

Mr. Atkinson handed Principal Washington a check for \$1,000 to help on the work. The forenoon exercises at the institute were devoted to the dedication of the Carnegie library. The annual industrial exercises of Tuskegee institute were held yesterday afternoon.

Marker on Clinton's Grave.
Washington, April 30.—Surrounded by the graves of hundreds of statesmen who have made history, a score of patriotic men representing the National Society of the Sons of the American Revolution assembled yesterday afternoon in the Congressional cemetery, on the banks of the eastern branch of the Potomac, and formally placed the official marker of the order at the monument of General George Clinton, New York's famous revolutionary war governor.

Pope to Hold Consistory in May.
Rome, April 30.—The pope has decided to hold a consistory earlier than he previously intended. It will now be held in the latter half of May. No new cardinals will be created, and only a few bishops will be appointed.

1,764 DEATHS OF CHOLERA.

2,369 Cases Up to Yesterday in Manila and Provinces.

Manila, April 30.—The cholera statistics up to yesterday were as follows: Manila, 605 cases and 483 deaths; provinces, 1,764 cases and 1,281 deaths.

Engineer Rendered Unconscious.
Toledo, O., April 30.—Clement Harper, an engineer on a northbound train on the Cincinnati, Hamilton and Dayton, railroad, was rendered unconscious yesterday.

His fireman knew nothing of the engineer's condition for some time, until the latter failed to whistle for a crossing. It is believed he was struck by a mail crane.

FIVE PERSONS KILLED.

Santa Fe Train Wrecked Near Medill, Mo.—23 Persons Injured.

Keokuk, Ia., April 30.—The California limited, on the Atchison, Topeka and Santa Fe road, eastbound, was derailed on a curve at Cama, a switch five miles west of Medill, Mo., yesterday, while going at a tremendous speed. The rails on the curve spread. Five persons were killed and 23 injured.

The Dead.

S. T. French, Chicago.
Mr. Weithener, San Diego, Cal.
A son of Henry C. Gates, of Australia, 5 years old.
Two others, whose names are not obtainable.
The injured include Conductor Charles Sargent and a twin sister of the Gates boy. The parents of the twins were also badly bruised.

CONDITION OF ARCHBISHOP.

Rev. Father Curley Declared Last Night There Was Nothing to Excite Apprehension.

New York, April 30.—Rev. Father Curley said of Archbishop Corrigan's condition last night:
"There is nothing in the fact of his restlessness and weakness of today to warrant apprehension. We anticipated a slow recovery because of his extremely weak condition. The pneumonia has almost left him, only a little part of the bottom of the right lung in the back being still affected. The physicians really anticipated this relapse, but they had hoped it would not be so pronounced. He will recover, but his recovery, as the doctors say, will necessarily be slow."

The afternoon bulletin, which is usually issued about 2:30 o'clock, was not given out until after 3. This, in connection with the fact that Dr. E. G. Janeway was called in for consultation, was looked upon as suggesting that the archbishop's condition had by no means improved. The bulletin read as follows:
"The archbishop is about as last reported, but is doing well."

E. G. Janeway.
"Francis Delafield."
"E. L. Keyes."

Dr. Keyes came out of the archbishop's residence a little before the bulletin was issued. He said:
"The condition of the archbishop is serious, but not critical. We sent for Dr. Janeway because the archbishop had undergone a little collapse and it was thought best to call in Dr. Janeway. That, however, does not indicate that there is anything out of the ordinary."

Dr. Keyes said that Archbishop Corrigan had partaken of two meals yesterday, at one of which he had a little beef and beef extract. He had also had a glass of champagne, and the doctor said he expected the patient to take another glass of champagne last night.
"The archbishop is very weak," he concluded.

WM. M'KINLEY OSBORNE DEAD.

He Was Consul General to London. Cousin of the Late President. Born at Girard, O.

London, April 30.—United States Consul General Osborne died at his residence in Wimbledon at 10:30 o'clock yesterday morning.

William McKinley Osborne was appointed consul general at London by President McKinley on March 13, 1897. He was born at Girard, O., in 1842. Later he moved to Boston. The deceased consul general was a cousin to the late President McKinley, his mother being sister to President McKinley's father.

He was a resident of Roxbury, Mass., and was appointed to London five years ago. The post is considered to be the plum of the United States foreign service, for the compensation averages about \$25,000 per annum and the expenses are not particularly large. Mr. Osborne was secretary of the Republican national committee during McKinley's first campaign for the presidency. He had been ailing for several years from Bright's disease, it is believed, and he was in ill health when he last visited the United States, about two years ago. His family, a wife and several children, were with him in Europe, the eldest boy at an English college, and his younger daughters at school in Paris.

Offered to A. Clay Evans.
Washington, April 30.—The president has tendered the office of consul general to London, made vacant by the death of William McKinley Osborne, to A. Clay Evans, recently resigned as commissioner of pensions.

EIGHT KILLED BY TORNADO.

Three of Injured May Die From Injuries Received in Texas Storm.

Dallas, Tex., April 30.—A special report from Granbury, Tex., confirmed the report of damage done at Glenrose by a tornado, Monday. One additional death, making a total of eight, is reported, and three of the injured probably will die. The revised list of dead follows:
Mrs. Carl Milan.
Two-year-old daughter of J. R. Milan.

Rev. Mr. Ford, pastor of the Methodist church.

Miss Mae Connell.

Musgrove, a boy.

Mrs. Gage.

Mrs. Page.

Unknown man.

Fatally Injured.

Mr. and Mrs. Lee.

Infant of Mr. and Mrs. Thomas Price.

There were 57 persons injured, but with the exception of the three mentioned as fatally hurt, it is thought that all will recover.

B. & O. Branch to East Liverpool.
East Liverpool, O., April 30.—A deal will be completed this week by which the Baltimore and Ohio railroad will secure right of way from Canton, O., to this city, on which to build a road to the coal deposits at West Point, six miles north of East Liverpool.

OFFENSE OF U. S. OFFICERS.

Turned Over Table in a Vienna Restaurant—Fight Occurred Resulting Arrest.

Rome April 30.—The arrest and sentencing of the three officers and a marine of the United States cruiser Chicago, on the charge of disorderly conduct, continue to cause a sensation here and at Venice. United States Ambassador Mayer, who was absent from Rome on an automobile trip, hurriedly returned to this city, in an endeavor to reach some arrangement with the Italian authorities.

Detailed reports of the trial of the Americans say they accidentally overturned a table in the cafe piazza, at Venice, and that they were violently seized with the intention of having them conveyed to a police station, which they resisted.

The public prosecutor said he did not believe the officers were drunk and severely criticized their conduct in causing the disturbances.

In the course of the defense counsel for the defendants agreed with the public prosecutor regarding it being the duty of guests to behave correctly, but counsel demanded that the magistrate examine the case in a spirit of serenity and impartiality, which, counsel inferred, was lacking in the prosecution's attitude. Continuing, counsel declared that if the conduct of the officers was blameable, the action of the pretended injured parties was more so in refusing to accept just compensation and in hunting for dollars.

After policemen had testified to being struck with fists and two civilians had deposed to being injured on their heads and arms by canes, the court took a serious view of the case and inflicted the penalties, on the ground that public officers had been violently opposed in the exercise of their duties. The question of compensation was referred to another court.

The penalties are generally considered very severe.

LT. GOV. NIPPERT RESIGNS

Frank B. Arches, of Belmont County, Becomes President of Ohio Senate.

Columbus, O., April 30.—Lieutenant Governor Carl L. Nippert yesterday tendered his resignation to the governor and was later appointed probate judge of Hamilton county. Frank B. Arches, of Belmont county, becomes president of the senate.

What were known as the "full crew bills," requiring that no passenger train shall be run with less than four men and no freight train with less than five men, passed the senate yesterday and are now laws. The bills were advocated by the Brotherhood of Railroad Trainmen.

THE MARKETS.

Pittsburg, April 29.

WHEAT—No. 2 red, 76@77c.
CORN—No. 2 shelled, 71@71½c;
No. 2 ear, 71@71½c.
OATS—No. 2 white, 50½@51c; extra 3s, 49½@50c; regular 3s, 48½@49c.

HAY—No. 1 timothy, \$14.50@14.75; No. 2, \$13.00@13.50; No. 1 clover, \$10.25@10.50; No. 1 clover mixed, \$10.50@11.50; No. 1 prairie, \$10.25@10.75; packing, \$9.00@10.00; No. 1 timothy, from wagon, loose, \$15.00@15.25.

BUTTER—Elgin prime, 30@30½c; tubs, 29½@30c; Ohio and Pennsylvania, 27@28c; dairy butter, 22½@25c; fancy roll, per pound, 20@22c; cooking butter, 18@19c.

BUTTER—Elgin prints, 25½c; tubs, 24½@25c; Ohio and Pennsylvania, 22@22½c; dairy butter, 19@20c; fancy roll, per pound, 18@19c; cooking butter, 16@17c.

Light For All Its Weight.

"I thought all the toasts tonight were to be of a light and amusing nature?" "They are."

"But you have Binks down for a topic that is decidedly heavy and serious."

"Of course if there is anything funnier than Binks trying to tackle a great principle that he doesn't fully understand, I don't know what it is."—Chicago Post.

DISGRACE TO ARMY.

So Declares Senator Teller of General Smith's Alleged Order.

IF TRUE, HE OUGHT TO BE OUSTED

Lodge Said Order to Him Was Revolt-ing, but He Declared President Ordered Smith Court Martialed on Receiving Information.

Washington, April 30.—A spirited discussion of the Philippine situation occurred in the senate yesterday. It revolved around the order alleged to have been issued by General Jacob A. Smith, to make the island of Samar a howling wilderness and to kill all male inhabitants over the age of 10 years. The debate took a wide range, however, and many other points were discussed.

When the Philippine bill was laid before the senate no one was prepared to deliver a speech on it. Mr. Lodge, of Massachusetts, in charge of the measure, said he felt compelled to press it for consideration.

His remarks drew the fire of Mr. Teller, of Colorado, who criticized the Republicans for not participating in the discussion. This precipitated the debate and for more than two hours it continued. Mr. Teller declared that General Smith, if he had issued such an order as had been attributed to him, ought to be dismissed from the service, as it was a disgrace to the American army and to the American people.

Mr. Lodge said that while he knew little of the circumstances surrounding the alleged order, he did not approve of cruel methods in warfare, and every right-minded person must regret General Smith's order. To him it was revolting. He defended the administration, however, saying as soon as knowledge of the order had come to Washington the president had directed that General Smith be court martialed.

TRIAL OF GEN. SMITH.

Witness Testified a Boy Murdered Captain Connell.

Manila, April 30.—When the trial by court martial of General Jacob A. Smith was resumed yesterday, Pedro Bella, a boy "Mascol" of Company E, of the Ninth infantry, commanded by Thomas W. Connell, who was massacred by the Samar natives at Italian gila, testified that he saw Captain Connell's death wound given by a boy of 15. The witness saw several other boys of the same age among the natives who took part in the massacre, and thought he could himself use a bolo against a soldier.

Captain Waldo E. Ayer, General Smith's adjutant general, said he had been closely in touch with all the movements and knew General Smith's plans, purposes and feeling at every phase. He added that on the general's arrival the coast was deserted and he saw the same towns filled with people when he left. Just so far as the people of Samar were concerned, he met only one man worthy of respect, who was sincere, patriotic and honorable. He must admit, however, that the man with this qualification was born at Marinduque, of Tagalog ancestry.

First Lieutenant Vandeman, of the Twenty-first infantry, who had charge of the military information bureau described, from the records, the treachery of the natives of Samar.

EXPLOSION ON THE FULTON.

Five Persons Injured on the Submarine Boat.

Lewes, Del., April 30.—An explosion of considerable severity, which injured half a dozen persons, occurred on the submarine boat Fulton yesterday, as she was running into the harbor of the Delaware breakwater. The boat was bound from Brooklyn to Norfolk and was partly submerged when the accident occurred. The most seriously injured are:

Lieutenant Oscar John, of the Austrian navy, severely bruised.

Lieutenant Arthur MacArthur, U. S. N., cut about the head.

Harry Moore, assistant engineer, injured about the head.

C. R. Minor, assistant engineer, nose split.

Charles Bechtel, gunner, severely hurt on head and body.

All the injured were sent to the United States Marine hospital and after their wounds were dressed they were discharged, with the exception of Bechtel. He will leave the hospital today.

The explosion was caused by the accumulation of gas which had been generated by the storage battery. Although the explosion was a violent one, the vessel was only slightly injured.

Prominent Quaker Clergyman Dead.

Richmond, Ind., April 29.—Rev. Mirajah Binfold, one of the most widely known clergymen of the Quaker church, is dead, at Carthage, his home. His last pastorate was at Brooklyn, N. Y.

AKRON TO COLUMBUS.

Work on Line From Canton to New Philadelphia.

New Philadelphia, April 30.—J. C. Welty, of Canton, representing Tucker, Anthony & Co., of Boston, who hold a franchise for building an electric street car line from Canton to New Philadelphia, met with the county commissioners Monday. They deposited \$1,000 cash and gave a \$5,000 bond as a forfeiture if the road is not completed by November 1. The company building the road means business and it is said will rush its construction as fast as possible. Work on the line was begun Tuesday near Strasburg. The road will run from Canton to New Philadelphia via Beach City, Strasburg and Canal Dover.

The company has about completed arrangements for an extension of the line from this city to Coshocton and Newark. At the latter place connection will be made with a line owned by Tucker, Anthony & Co., running to Columbus, which will give the company a through line from Akron to Columbus.

THE BUILDING BILL PASSED.

Appropriation Will Reach Sixteen Millions.

NO CHANCE FOR AMENDMENTS.

General Miles is Safe, as Long as He Maintains His Present Attitude of Reserve—Rural Mail Carriers May Carry Daily Papers on Which Postage Has Not Been Paid.

Washington, April 30.—Under a special order, which allowed three hours' debate but which cut off all opportunity of amendment, the House yesterday passed an omnibus public building bill which will distribute \$17,405,450 among 171 cities. As the bill covers into the treasury \$1,585,000, the total amount carried by the bill is reduced to that extent. The bill provides for 77 new buildings and sites, 6 buildings on sites already purchased, 17 buildings on donated sites and 58 increases in appropriations for buildings already authorized. It also provides for the purchase of 16 sites. The majority for the bill was so overwhelming that only nine members backed a demand for the yeas and nays on the passage of the bill. There was some criticism of the method by which it was proposed to pass the bill without opportunity for amendment, which Mr. Mercer, chairman of the committee, answered by stating that if the bill had been subject to amendment the appropriation carried by it would have been increased to \$60,000,000. The consideration of the agricultural appropriation bill was resumed, but only seven pages were disposed of.

It is now believed that no further consideration will be given by the President to the subject of retiring Lieutenant General Miles, so long as the commander of the army continues his present attitude of reserve, and that the case will be allowed to remain as it is unless General Miles himself should do something or take some action to revive the recent determination of the President.

Secretary Long has a cable from Captain Dayton, of the cruiser Chicago, saying the principal charge against Wynne and other officers of the cruiser was resisting the police, a very serious matter under Italian law. The resistance was largely due to the pressing in of the crowd, and the officers not understanding the language. An appeal will be made to Rome. The postoffice authorities reversed themselves on the ruling made a short time ago that rural mail carriers may not distribute daily papers unless postage has been paid on them. The privilege of being newsboys is therefore restored to the mail carriers.

TUGS ARE LAID UP.

Striking Firemen Are Doing Picket Duty at the Docks.

Buffalo, April 30.—The Great Lakes Towing Company, whose firemen are on a strike, has laid up all its tugs. The striking firemen have pickets along the docks. The independent line tugs have all they can do.

For Over Sixty Years

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

OHIO FOES OF LIQUOR.

The Prohibition State Convention In Session at Zanesville.

PARTY GROWS IN POWER.

Now Large Enough to Nominate Without Petition—Pinney Declares Complete Tickets Must Be Nominated In Every County and District.

Zanesville, O., April 30.—The temporary session of the Prohibition state convention convened at 3 o'clock yesterday afternoon, and E. J. Pinney, of Cleveland, delivered the campaign keynote speech. The unexpectedly large convention and the fact that the party had reached such proportions that it could now nominate without petition were the subjects of congratulation and the party was urged to renewed effort.

"Complete tickets must be nominated in every district and county," Mr. Pinney said, "and the nominees for congress must be men who can and will take the stump and keep at work until election day."

He declared that once the vote reached 100,000, the next election would see the party in power.

He characterized the Anti-Saloon league as a failure, saying: "It has had access to all the churches of the state and spent more than \$300,000 in the past 10 years. As a result of this we have seen abolished the laws prohibiting the sale of intoxicating liquors within two miles of an agricultural fair; the law providing for the recovery of damages for injury by an intoxicated person amended so that it is worthless, and imprisonment for Sunday selling abolished."

A central committee of 21 members was named and will continue the present state executive committee, with George L. Case, of Cleveland, as chairman. The resolutions committee favors the single prohibition plank platform. National Chairman Stewart, of Chicago, was the principal speaker at the mass meeting last night.

WILL APPEAL LAJOIE CASE.

Johnson Said It Would Be Taken to U. S. Supreme Court.

Baltimore, April 30.—President Bar R. Johnson, of the American league, was in this city yesterday. Speaking of the injunctions restraining Lajoie, Fraser and Bernhard from playing with any other than the Philadelphia National league club, Mr. Johnson said:

"We have ample grounds for a new appeal to the supreme court, and while this is pending the injunction issued by the lower court will be raised. We will give bond and the three players concerned will be at liberty to play with the Athletics. Should the decision be unfavorable to us, we can take Lajoie's case to the United States court. The cases of the other two men cannot be taken there, because the amount involved is less than \$2,000. Our attorneys are confident, and I share their confidence, that we will win out. Then the only redress the National league will have is in a civil suit for damages against each player, before a jury."

Will Suggest Lajoie as Umpire.

Baltimore, April 30.—Secretary Harry Goldman, of the Baltimore American league club, who will represent that club at the special meeting of the American league in Cleveland today, will urge the adoption of the double umpire system and the employment of Lajoie, Fraser and Bernhard as umpires.

NATIONAL GAMES YESTERDAY.

Philadelphia-Boston, rain.

HOW OLD WAS FRED. THOMPSON?

At Least One Hundred
Years, it is Said.

HIS DEATHBED STATEMENT.

Called the Pastor of His Church
to Him When He Felt the End
Was Near and Gave Him
Some Facts to Make Public
—Dates Are Confused—Said
He Was Married When Six
Years Old—A Unique Char-
acter.

Frederick Thompson, the aged colored man, whose death occurred at 8:30 o'clock Sunday morning, realized that the end was near Saturday evening, and sent for the Rev. J. E. Transue, pastor of the African M. E. Zion church, to whom he said he desired to make a statement to the public, to be printed after his death. There had always been a kind of mystery connected with the life of "Old Thompson," as he had been familiarly known as far back as the oldest inhabitants can remember, particularly in regard to his age. Thompson would never tell his exact age, but the popular supposition was that he was easily a centenarian. Thompson says that is impossible or at least unlikely in his statement, which in the language of Mr. Transue, is as follows:

"First say that I was born in Virginia in 1827, was raised by a Quaker, and was never a slave. This Quaker was good to me, and I was taught to read a little, though never had much education. I went to Pennsylvania in 1842, and to Ohio in 1845, in which year I was married, settling in Salem, afterwards coming to Massillon. I carry a little life insurance, about enough to bury me. My horse and wagon and everything else I own I want to go to Mrs. Lacey and Homer, who were good to me while I was sick."

Mr. Transue thinks that the dates had become confused in the old man's mind. While he was taking down the statement, Mr. Transue pointed out that it was hardly possible that Thompson should have married at the age of six years, but the dying man declared that he had made no mistake, and asked not to be interrupted. Mr. Transue shares the popular belief that Thompson was nearly a hundred years old. Mrs. Melinda Clemons, of 36 North Mill street, probably the oldest woman in town, says that she knew Thompson before he came to Massillon, and that he was 100 years old at least.

Thompson was a most interesting character. For many years he bought and sold old iron and bones, accumulating considerable property. Much of his property Thompson lost through the manipulation of persons whom, because of his own ignorance, he was compelled to trust. He was married twice. His first wife died many years ago. His second wife is still living, though Thompson had not heard from her for years.

Thompson was a trustee of the Zion church, and was an active church worker. He was renowned for miles around as a campmeeting revivalist.

Thompson had seen pretty hard lines during the past three or four months. During the summer he made a fair living draying, but was unable to lay up any money for the cold weather when there was little work for him and his horse. When the township trustees first went to his home at the beginning of his illness, the only food they found in the house was some scrapings from cracker barrels, which Thompson said was the only subsistence he had had in weeks. Thompson lived in a hut in Jarvis avenue, which he shared with his horse, Harry, of which he thought as much as of any human being. Only a thin partition separated Harry's stall from Thompson's living room, and to enter the latter it was necessary to pass through the horse's stall. Mr. Transue, a short time ago, improved conditions somewhat by cutting a door in the front end of the hut opening directly into Thompson's room. Mrs. Lacy, colored, and her son, were with Thompson for several months past, and at his bedside when death occurred.

OBITUARY.

GERTRUDE KING.

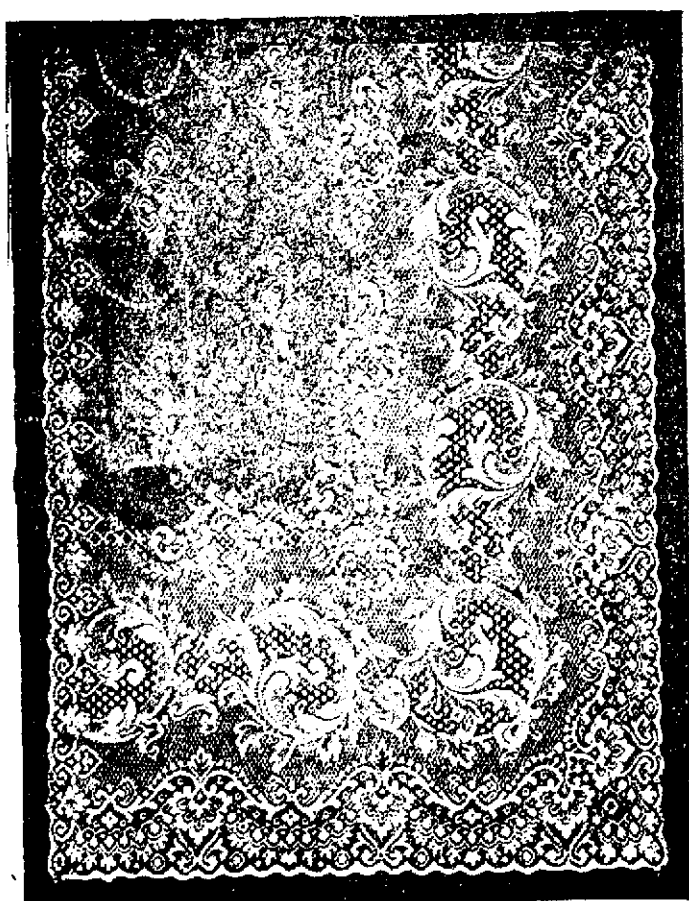

Gertrude King, an inmate at the state hospital, died Saturday evening at 8 o'clock. Doctors pronounce her death due to pyaemia. Miss King was sent here from East Liverpool and had been a patient only five weeks. Her father and brother reached Massillon Sunday morning and made arrangements to have the body interred in the Massillon cemetery at 12 o'clock today.

BENEDICT'S

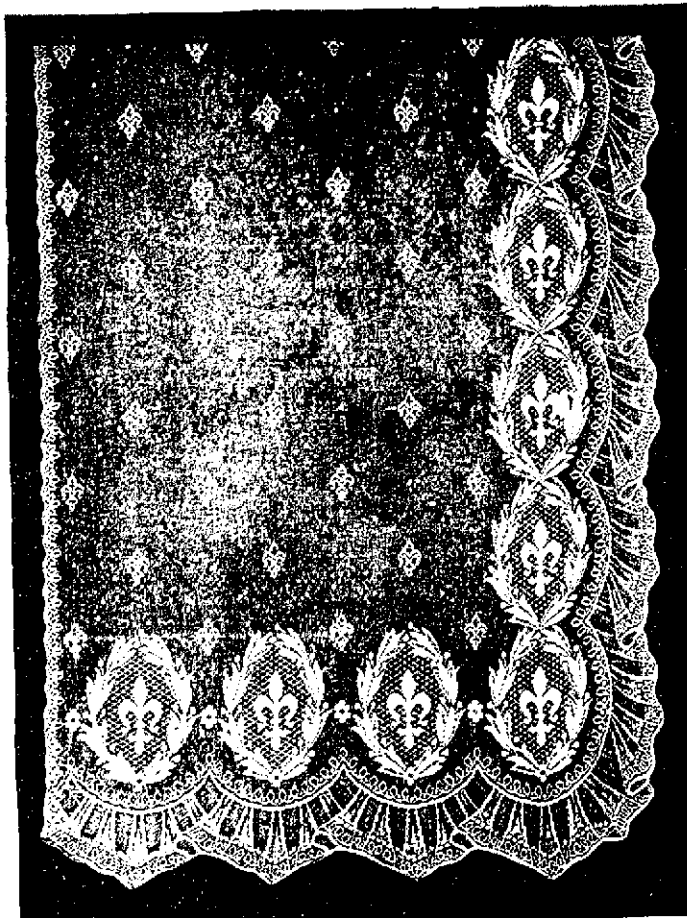

Mail Order Home Outfitting.

We give below a few cuts and prices on goods from our mail order department That they are exceptionally good values is proved by the fact that mail orders are received daily from nearly every town where our goods have been advertised. We offer for a short time, hundreds of special values, from this department to our retail trade. Including CARPETS, RUGS, DRAPERIES, ETC., FURNITURE of every description. We mention a few leaders that are positive knock-outs for every mail order house in the country, viz: Enamel Bed, brass top rail and knobs, with a first class spring, only \$6 00; a 30 in. tufted top Velour Couch with rococo edging, (no fringe,) at \$9 00; adjustable Tete Couch, Mohair Plush, \$16 75; etc., etc.

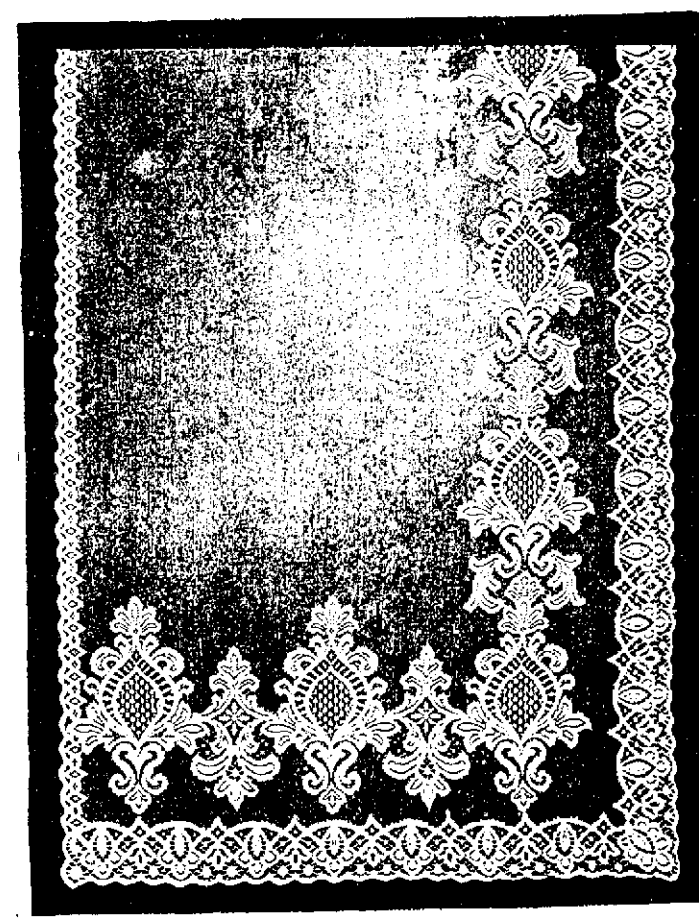

Don't let these Low Prices mislead you, the goods are much better than you will expect for the money.

No. 3752—50 in. wide, only,
98 cents.

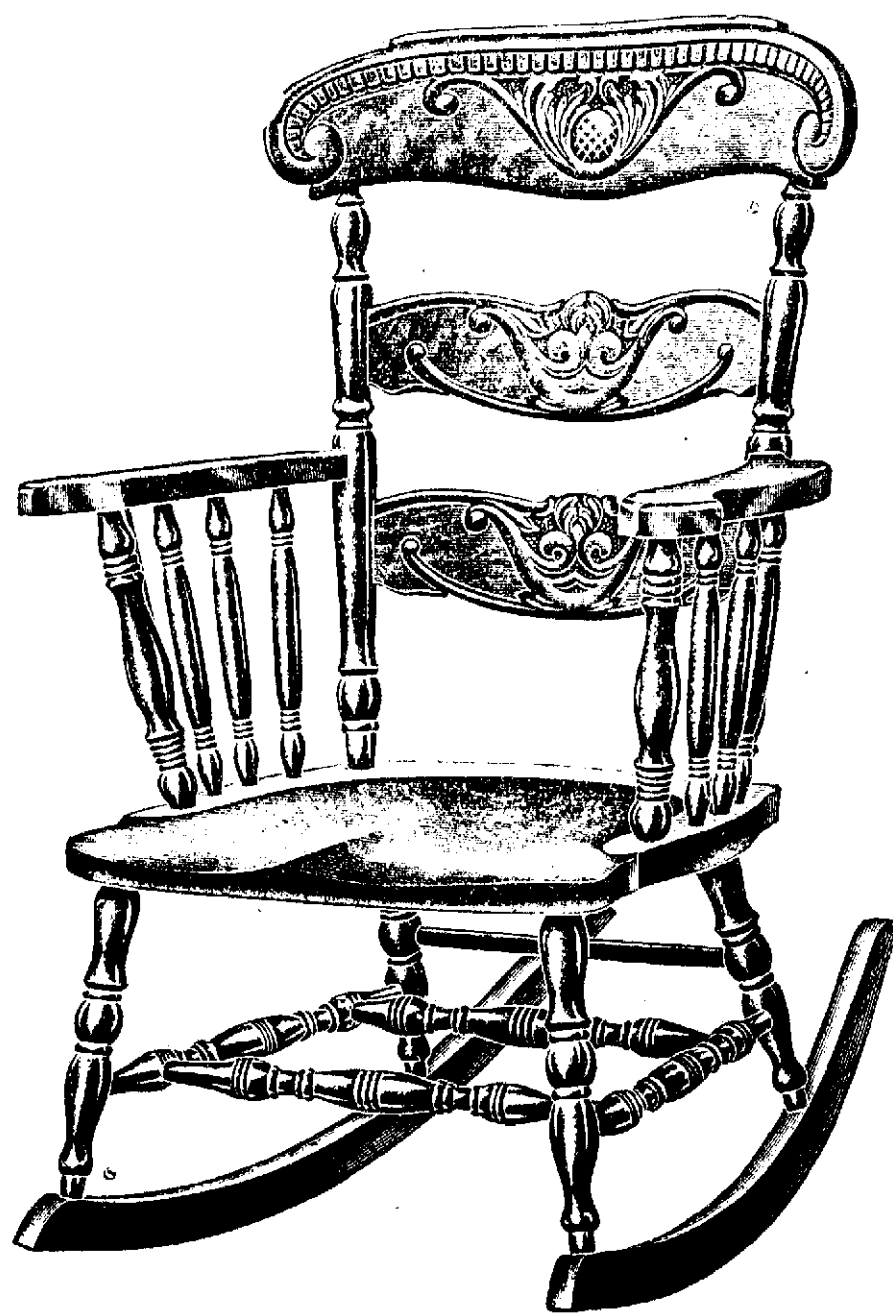

No. 5557—3½ yds x60 in.,
\$1.98.

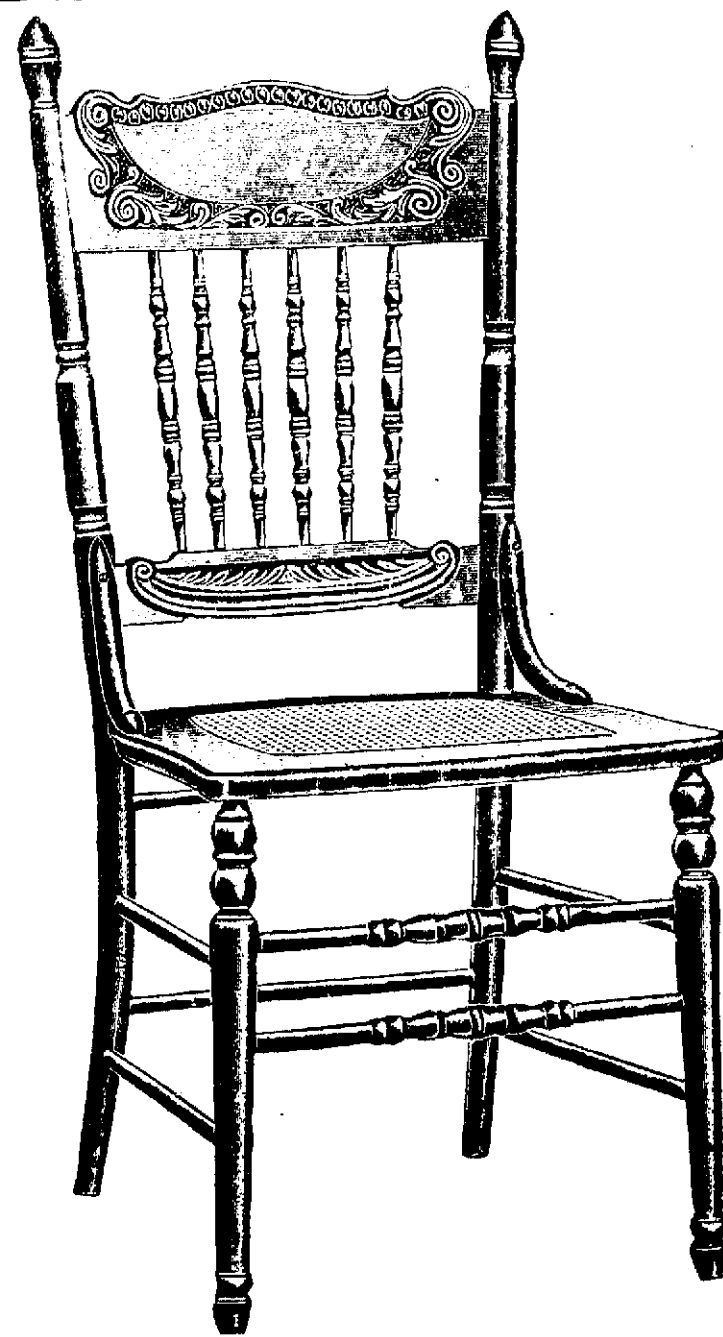

No. 3283—50.x3½ yds, Cable Net,
Only \$2.48.

Positively the best values ever offered in Lace Curtains; 25 patterns from 98c up to \$3.50, as good if not better values.

A Solid Oak, Saddle Seat Rocker, polished, certainly
a \$4.50 value,
Only \$3.75.

An extra large, Solid Oak Dining Chair,
Only \$6.00 per set.

A Solid Oak, box seat,
Only \$11.50.
Genuine Leather \$14.60 per set

One carload of Chairs, one carload of Couches, one carload of Enamel Beds all placed on sale this week. Our March and April business shows an increase of three times any previous season. Our determination to meet all competition, mail order or retail, wins friends and patrons daily. The standard of our stocks are well known hereabouts. Our guarantee means just what it says Your money back if dissatisfied with any purchase made here. Don't forget our WALL PAPER department, prices are the lowest quoted.

W. D. BENEDICT.

Cor. Erie and Tremont,
MASSILLON, O.

IF OUT OF TOWN WRITE FOR DESCRIPTION CIRCULARS.

The coming crop of winter wheat at this date, April, promises to be as good a one as that of 1901.

The most beautiful evergreen which we know of is a Colorado blue spruce planted ten years ago.

A person would have to eat ten pounds of mushrooms to get as much nutriment as is contained in one pound of beefsteak.

A late spring frost when the fruit is all in bloom is one of the most discouraging visitations with which the fruit grower has to contend.

The ladies generally praised the Lord at the Easter services with flowers and not dead birds on their Easter hats, for which let us all be duly thankful.

We don't go very much on those communities which have to have a religious revival every two or three years to make the people honest and decent.

There will be only three or four varieties of Philippine island woods which will be of any value for shipment to this country for use in cabinet work.

The nice, truthful man will develop into an Ananias quicker when he goes into the real estate business than when he takes up horse trading for a profession.

In law if your dog does the traveler on the public highway any injury you are liable for all damage. Some men owning some dogs will do well to note this fact.

The man who uses a wide tired wagon should in all fairness get a rebate on his road tax, for he does good work on the highways every time he drives over them.

There is nothing which a farmer can buy which will justify him in giving his note to an entire stranger. Observation of this fact would save a whole lot of trouble.

The vitality of weed seeds is never impaired by atmospheric conditions, and some of them seemingly will lie for twenty years in the ground and then germinate.

The hen and the sheep should each net their owner a dollar a year and will do it with ordinary good care, and a man can keep six hens for what he has to feed one sheep.

Some crop expert estimates the wheat crop of North Dakota for 1902 at 60,000,000 bushels and this at a time when not a kernel of the wheat is yet sown. It is a great thing to be a crop expert.

Some of our American butter makers would not be able to get a job in the creameries of Germany, for there it is unlawful to get more than 20 per cent of water and salt worked into the butter.

The advance in the price of the best beefsteak to 25 cents per pound is putting the restaurant men to their wits end to adjust the thickness of the steak served their customers to the increased price.

Try to muster courage enough to say "No" when solicited to invest in any of the hundred and one wildcat oil, mining and real estate schemes with which the country is flooded at the present time.

It is said that steak selling at 25 cents per pound is greatly encouraging the use of horseflesh as food in many of our larger cities. It mostly gets into the alimentary canal in the guise of sausage and dried beef.

The difference between the cow which gives 3,000 pounds of milk a year and one which will give 5,000 pounds is just the difference between a poor cow which barely pays her way and one which gives her owner a nice profit.

It is the farm which does the business. In 1901 this country exported agricultural products to the value of \$952,000,000, while the products of agriculture imported from other countries only amounted to \$352,000,000.

How long should it take for a woman to hitch up a horse to a buggy? We know of one woman who can do it in two and a half minutes, for she has been timed, and then we know of lots more who could not do it in two hours.

A good hailstorm in July is one of the best sparrow exterminators we know of. As many as 400 dead birds have been picked up under three thick foliaged maple trees where the storm caught them while roosting just at dark.

The Chinaman who comes to this country and goes into the "washie" business generally saves up about \$800 a year and at the end of five years is ready to go back to China and lord it like a millionaire in his old community of pigstails.

The sooner that all taxes for road purposes are paid in cash and disbursed under competent management under contract the sooner will more and better work be done on the highways. Where road taxes are worked out the public does not receive 50 cents on the dollar.

While his excellency the Poland-China hog is a most important factor in the agricultural prosperity of the country at 7 cents a pound, as today, we still have to be obliged to make his personal acquaintance in the effort to reach the front door of his owner's residence.

Where the writer lives it has about come to this—if you want anything, you must do it yourself. Nice state of affairs, for a fact—got to saw your own wood, make your own garden, build your own house, do your own washing and housecleaning. Maybe the millennium is here.

Take a receipt when you pay money and file it away in an envelope. It does not take long, and the chances are that you will be a good many dollars ahead in the course of ten years. While there are a few men who really forget to charge, there are many more who forget to credit.

If the land is free from rubbish and mellow and dry, the weeder will be found a most useful tool in the care of all crops which have to be cultivated. Its mission is to kill weeds before they are born and to beget a dust much in a dry time. Don't try to use it on cornstalk ground.

Nature's processes are full of interest to the lover of natural science. When a tree is sick and begins to decay, nature hastens the process by sending an army of borers to perforate the wood on the injured part and a host of woodpeckers to tear it to pieces in search of the borers.

A western man who had a skunk locate in his cellar last winter had almost as much trouble as his neighbor who had the smallpox in a mild form in his family. There was this difference, however—the man with the skunk did not have to quarantine his premises. The skunk did that.

The fodder of late planted corn—corn planted, say, June 10—contains a much larger per cent of protein than that planted earlier. This fact was brought out at the Minnesota experiment station and is well worth noting by all men who seek an improved milk producing ration for their dairy herds.

It seemed tough to him, we suppose, but that farmer who, driving by his neighbor's homestead, had his hired man jump out of the wagon and shoot four quail out of a flock which his neighbor had fed through the winter was well and righteously served when he had to pull \$70 out of his jeans to settle the bill.

This thing was done by many last year in North Dakota: A homestead on government land was filed upon in May, a hundred acres of the land were broken up and sowed to flax by the middle of June and a crop of fifteen bushels of flax raised, which sold for \$1.35 per bushel as soon as it was thrashed. This result cannot be obtained every year, however.

A Wisconsin farmer sued a storekeeper for damages for selling him mustard seed for rape seed, his farm becoming injured by the mustard which he sowed. After being in the courts for five years the farmer has at last won his case and gets damages, which the litigation costs and the lawyers will probably use up. The question of responsibility in such a case is determined, however.

We sampled six different makes of cheese not long since in six different stores, and only one of them was good—that a cheese made in Herkimer county, N. Y. The other five samples were of western make—tough, livery, acid, full of gas holes, flavorless, indigestible and unpalatable, fully illustrating to what depths of degradation it is possible to carry the pure product of the cow. While plenty of good butter is made in the west, the fine art of cheesemaking is almost unknown in the western states.

PLANTING THE TREE.

There are a few things connected with the successful planting of trees of any kind which should be borne in mind. As much of the root system as possible should be preserved; the tree should not be exposed to the sun and wind after digging it up and prior to planting; the top should be cut back to correspond with the pruned roots. Moisture is absolutely indispensable to insure growth. All transplanted trees should be heavily mulched for the first year.

RARE DEEDS.

Numerous gentlemen who will have votes in the back districts next fall for congressmen are in receipt of packages of rare seeds from their congressmen—radish, rutabaga, onion, squash and some pansies and four o'clocks for their wives, with minute directions for planting—and accompanied with the urgent request that a full report be made to the department as to the value of the products and their adaptability to the latitude where the grower lives, all of which is calculated to make one smile.

MORE BOOKS AND PAPERS NEEDED
We were in a farm home not long since where the supply of reading matter was very small. Only one paper was taken, that the local one. There were about a dozen books all told—an annual from a city catalogue house, a couple of gloomy looking tomes which treated of the peculiar system of religious belief which prevailed in the home, a four dollar fable (a relic of some smooth tongued book agent), a patent office report or two and a Bible which served as a dust catcher. There were in this home half a dozen bright boys and girls, and all the chance they had to find out about the great and good world in which they lived was what they could catch from nature and what they could pick up at a poor country school. Here was a case where the sum of \$20 should have been expended annually in good papers and magazines just for the instruction and education of these boys and girls. The father could well afford to do it, for he did not hesitate to put plenty of money into improving his stock and getting the best and latest improved farm machinery, while he let his children just grow like Topsy—to mature as ignorant, ill informed and awkward farm products, handicapped for all their lives for want of the same intelligent care which was given to every other animal on that farm.

THE WHOLE WORLD HIS.

A farmer speaking to us lately said that it was a hard matter to rid the business of farming of a certain prejudice which the handling of the soil and the care of stock subjected it to; that his business was not on an equality in a social way with other professions. Our friend was wrong in his conclusions. Whatever it may have been in the past, society has at last got sense enough to accord the tiller of the soil his rightful place. It is forced to admit that wealth and wampuses, culture and cow barns, hogpens and honesty, delicacy and dairymaking, may be fittingly and harmoniously blended; that napkins and silverware are not out of place on a farmer's table and that to have been born and brought up on a farm is proving to be the beginning of most of America's greatest men. If there are no books or papers in the farm home, if life is made one unmitigated grind of toil from one year's end to the other, if the children are raised for the work which can be got out of them, if the farmer's hands work while his gray matter lies dormant, if he has no ambition to be a man in the largest sense, then will he find the bars up, but if he catches the progressive spirit of the age he will find all doors open, all places inviting him and abundant recognition of his true worth.

A FAMINE IN THE UNITED STATES.

When we read of the famines in India, China and Russia which carry off millions of people, we in this land of plenty can hardly realize what a famine means—the horrible destitution, prolonged misery, the obliteration of the divine in man. In this country, not as yet overpopulated, with a genial climate and ample rainfall, a productive soil, railways touching all sections, the possibilities of a famine are fortunately very remote. Still the existing condition of things, when all manner of foodstuffs is enhanced in value nearly 60 per cent as a result of only a partial failure of crops last year over only a part of the country, such failure following several years of abundant harvests and a large surplus carried over in bins and granaries, sets one to thinking what might be when we have 200,000,000 people instead of 80,000,000. Associate this certain increase of population with constantly diminishing productive power of a very large section of the arable area, and the time may come when instead of feeding other hungry nations we shall have our resources taxed to the utmost to feed our own people. The present state of affairs emphasizes the need of better agricultural methods, a stoppage of farm wastes and the use of more intelligence in carrying on the farms.

THE NEIGHBOR'S CHICKENS.

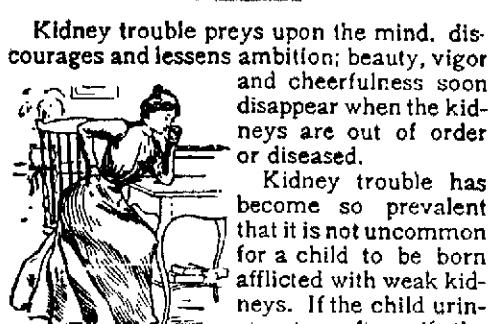

This is the season of the year when the neighbor's chickens are very apt to be raising Cain with your newly made garden and you may want to know what to do about it. Hens are not free commoners any more than is stock of any kind. If they come on your premises you may catch them (if you can) and proceed in law just the same as though it was your neighbor's horse, cow or hog which was trespassing. If you cannot catch the fowls and shut them up, holding them as security for payment of the damage done—and you probably can't—you can sue your neighbor for damages even if it amounts to as small a sum as 10 cents. You have no right to shoot the fowls. If you do he would have a case against you. The best remedy we have found is to train a dog to chase the hens out. After a little while they will be so scared that they will stay away. Only mean men let their chickens run to bother their neighbors, anyway.

SEVENTEEN YEAR LOCUSTS.

Nearly every year some sensational paper or person starts the story that this is the year when the seventeen year locust is due, and many ignorant people get scared and fear that the hopper will come in force and eat up all vegetation. Even if there is such an insect as the seventeen year locust, and if this should be his year to get in his work, no serious harm would be done. The hoppers will not do one-half as much damage as will the weeds on the farms of the country.

Joe Trigg

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

OHIO A GREAT STATE.

The census bulletins coming from the press from day to day help to explain why Ohio is a great state. One of the last to be issued treats of manufacturing in Ohio. It shows that the census figures find a total of 32,398 factories in Ohio, employing 370,000 persons who earn in wages \$183,000,000 in a year. The product turned out in the census year was worth \$832,000,000, or deducting the cost of the materials used, the value was \$523,000,000. From raw material the factories of Ohio created a gain of above half a billion dollars. Her manufactures have increased 250 per cent in 20 years. Meantime Ohio has kept a foremost place as an agricultural State, has held a prominent rank in the business of transportation, and has contributed her share of the men who have managed the affairs of the nation.

Ohio is a great state because she is so largely self-dependent. She has made marked successes in the great industries of the country, pinning her faith to no single thing and promoting every field that affords reciprocal aid to the others which help towards her thrift. When Ohio began to harvest wheat she commenced to make machinery to help the farmer. When she commenced to make railroads her shops started to build cars. When Ohio people wanted wood-working machines other men set up shops to build them. In caring for her own wants Ohio looked about her to see if her neighbors could not be provided with anything, and her interstate trade prospered. Ohio has been awake and aggressive. It is a good thing for Ohio, and for every other state. It will be better for the whole country when more states have followed Ohio's example.—Pittsburg Times.

Louisville, O., April 23, 1900.
"Mr. A. A. Slusser, Dear Sir:—I desire to recommend your Gall Powder as a success. Had a horse with a galled neck and could not heal it in any way. Was advised to use Slusser's Gall Powder, which I did, and must say it is all right. I worked my horse every day while using the gall cure. I consider it the best in the market."
S. I. HOCKENBERGER.

BURNHEIMER NOMINATED.

Fifty-seven Votes More Than Seacrist.

FIVE PRECINCTS TO HEAR FROM.

Schiltz is Probably Nominated for Coroner by a Majority of Twenty-eight—Missing Precincts Are Not Likely to Change the Result.

Canton, April 28.—With five precincts missing, for coroner Dr. Frank W. Gavin has 1954 votes and Dr. Clarence F. Schiltz 1982 votes, giving Dr. Schiltz a plurality of 28 votes. This makes the result on coroner remain considerably in doubt. For county commissioner, James C. Burnheimer, of Canton, has 1161 votes, while his closest competitor, M. L. Seacrist, of Alliance, has 1104 votes. This gives Mr. Burnheimer a plurality of 57. The vote in the missing precincts is not likely to defeat Mr. Burnheimer who apparently has been nominated. The missing precincts include McDonaldville precinct of Jackson township, Bridgeport of Marlboro township, Paris precinct of Paris township, Elton precinct of Sugar Creek township, and Stands precinct of Tuscarawas township. At Republican headquarters it was reported that but two votes had been cast at Pigeon Run and that they were destroyed. In Alliance it is said that 33 irregular votes were thrown out.

The county commissioners today went to Columbus to submit to the state board of charities for approval the plans for the new infirmary building.

Richard J. Jennings, a member of the firm of Ball & Jennings, died Sunday. He leaves a wife.

The death of Dr. J. M. Bye, aged 67 years, who had been a practicing physician in this city for nearly forty years, occurred this morning. He is survived by a wife and one son, the latter being teller at the George J. Harter bank. Funeral services will be held Thursday at 1 o'clock. Only nineteen applicants successfully passed the Patterson-Boxwell examination Saturday. Leo X. Blantz and Walter Miller were among the successful. The questions were prepared by the state commissioner of education instead of by the county examiners, as heretofore.

In the ball game at Mahaffey park, Sunday afternoon, the Canton team defeated the Standards, of Cleveland, by a score of 26 to 0.

UNDER ADVISEMENT.

Justice Paul has Not Rendered Decision.

Justice Paul Saturday afternoon heard the case of the state against Edward Fisher, charged with assault and battery. Charles Witt is the prosecuting witness. There were many other witnesses, some of whom swore there had been an assault and some that there had not. The court still has the case under advisement.

CHRISTIAN B. HOFFMAN.

Monday morning at 1 o'clock, at his residence 35 Kent street, occurred the death of Christian B. Hoffman. Mr. Hoffman was 65 years of age, and an old civil war veteran. He was a painter by trade. He leaves a wife and two sons. The funeral services will be held from the residence Tuesday afternoon at 1 o'clock.

Career and Character of Abraham Lincoln.

An address by Joseph Choate, ambassador to Great Britain, on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life and his administration, which placed his name so high on the world's roll of honor and fame, has been published by the Chicago, Milwaukee & St. Paul railway and may be had by sending six (6) cents in postage to F. A. Miller, General Passenger Agent, Chicago, Ill.

Very Low Rates

during the months of March and April via Chicago & Northwestern Railway, \$30.00 from Chicago to Helena, Butte, Anaconda, Ogden and Salt Lake City; \$30.50 Spokane, \$33.00 Portland, Seattle, Tacoma, Vancouver, Victoria and a large number of other points. Tourist Sleeping cars every day from Chicago to the Pacific Coast. For maps and particulars apply to nearest ticket agent or address A. F. Cleveland, 234 Superior street, Cleveland, Ohio.

Travel Like Princes.

Those who saw the special train in which H. R. H. Prince Henry of Prussia made his tour of the United States are comparing it with other trains in regular service, and it is admitted that none of the cars in the train compare favorably with the buffet, compartment and standard sleeping cars of the Pioneer Limited trains of the Chicago, Milwaukee & St. Paul in daily service between Chicago, St. Paul and Minneapolis. The people of this country have the satisfaction of knowing that at any time they cannot only travel like Princes, but can get much better service.

A Matter of History.

The Chicago, Milwaukee & St. Paul Railway, popularly known as "The St. Paul Road," began the use of electricity for lighting in 1888. In that and many ways it has been a pioneer in the adoption of comforts for the traveler. In building the world famous Pioneer Limited trains a mark was set in luxury and beauty of cars that has never been equaled, and probably never will be.

A New Departure.

The Chicago, Milwaukee & St. Paul Railway has recently put in service on its Pioneer Limited trains the largest and handsomest dining car ever built. It is 82 feet in length from tip to tip, and its body is 6 inches wider and higher than the usual dining car. It seats 36 people comfortably in movable chairs, and has a kitchen large enough to permit the working of six cooks which with six waiters and a conductor make up the crew. The dining cars heretofore in service did not provide sufficient space to properly care for the large number of patrons of the Pioneer, so that it became necessary to have a larger car.

Lower Rate Excursion to California.

During the coming summer frequent opportunities will be offered by the Chicago, Milwaukee & St. Paul Railway to visit California at the lowest round trip rates ever offered, with choice of routes from Chicago via Kansas City, Omaha or St. Paul, or going and returning via different routes. Electric lighted trains, route of the Pioneer Limited, famous train of the world. Write for full information to F. A. Miller, General Passenger Agent, Chicago.

California Illustrated

The Chicago 400, an illustrated journal of travel and topics, issued by the Chicago & Northwestern railway, is one of the finest illustrated publications ever printed. The tinted half-tones rival those of the finest magazines, and the letter-press of the whole edition is perfect, pictorially and descriptively mirroring California's wonderful scenery. Copy delivered free on application, or mailed to any address upon receipt of two cents postage, by W. B. Kniskern, 22 Fifth avenue, Chicago, Ill.

Notice to Township Trustees and Physicians.

Notice is hereby given that on the fifth day of May, 1902, the contract will be given to physicians of each township for treating and furnishing medical and surgical aid to the poor and indigent of the respective townships of Stark county, Ohio, all bids to be directed to the secretary, Canton, O., Box 480. Trustees are requested to meet with infirmity directors at their office in the court house on the fifth day of May, 1902. W. M. HARDGROVE, Pres. THOS. J. MILLER, Vice Pres. ANDREW REESE, Sec.

Home Proof for Home People.

You cannot persuade honest, well-known people to endorse a medicine unless it is right. The fact that the testimony here offered is from Massillon people, is positive proof that we are right when we say that in the cure of any and all diseases of the nervous system Dr. A. W. Chase's Nerve Pills is a medicine that stands head and shoulders above all similar preparations.

Akron Street.

Mrs. E. F. Diehm, of 73 Akron street, Massillon, O., says: "I was nervous, run down and generally miserable—lacked energy and life. I was told Dr. A. W. Chase's Nerve Pills would cure this condition, and got some at E. S. Craig's drug store, No. 9 South Erie street. They certainly did, as I feel steady in nerves and generally strong and energetic. They are a good tonic and no mistake."

BEWARE OF IMITATIONS. Signature and portrait of Dr. A. W. Chase on each box of the genuine. For sale by dealers, 50 cents a box, or Dr. A. W. Chase Medicine Co., 257 Washington St., Buffalo, N. Y.

Plum Street.

Mrs. John Andrews, of No. 58 Plum street, Massillon, O., says: "When I began the Nerve Pills I was on the verge of nervous prostration, weak, nervous, restless, easily upset and sleeping very poorly. This condition rapidly changed with the use of the Nerve Pills and now I sleep well and rest; strength naturally came back and with it nerve strength and steadiness. I am more than pleased that Mr. E. S. Craig, druggist, of No. 9 South Erie street, called my attention to the medicine, as it certainly is a superior nerve tonic."

barger's Cigar Stand (Hotel Conrad),
and Bert Harkin's News stand in
North Mill street.

THURSDAY, MAY 1, 1903

Prof. Fiske, of the Northwestern university has presented statistics covering nine years showing that the students who smoked made a much lower average in class percentages than those who did not smoke. Last year, he says, not a single student using tobacco stood in the front rank and there has been only one exception to this in the nine years. This seems to be conclusive proof that the boy who wants to acquire a good education will do well to let tobacco alone.

Misgovernment, oppression and famine are evils whose existence among the people of a community or nation cannot go on forever. The ruined peasants and oppressed workers of Russia have again been seized with the spirit of revolt. It remains to be seen whether the Czar's empire is already on the threshold of developments which will mark the beginning of its end, or whether the present uprising will subside as has been the case with others. The fact that a portion of the advanced section of Russian society is now acting in conjunction with the lower element is one of great significance.

Ben Tillett, the English labor leader, has just returned to London after a tour among the labor organizations of the United States and has made a report on the position of American labor. He says that he noticed a buoyant and hopeful demeanor among workers over here and that there prevails franker and more business-like relations between capital and labor than in England. Tillett maintains that in England the highest quality of skill and energy is said by the employers to constitute what they call average ability. In America, on the other hand, superior proficiency always receives extra compensation.

Silk manufacture in the United States, according to the last census report, has shown a marked development since the census of 1890. It has taken its place as one of the leading industries of the nation and along several lines has established its independence of foreign competition, due chiefly to the enterprise of the manufacturer, the perfection and reliability of his machinery and the wise restriction of importation during the less prosperous period of the development of the industry. In the items of capital, wages material and products the industry has maintained a constant increase from 1850 to 1900. The value of products in 1900 was nearly sixty times as great as it was in 1850.

Members of the local Typographical Union, whose kindly and sensible feelings prompted them to include their wives, daughters and sweethearts in plans for an evening's pleasure, were amply repaid by the success of the interesting entertainment given in the Trades and Labor Assembly hall Monday night. The diversions of the various crafts have lately taken the form of "smokers" in which refreshments, of all kinds, and the fumes of tobacco are the order. The Independent believes that a good smoker occasionally is a good thing, but the "women folks" are necessarily excluded from these entertainments. The Typographical Union deserves a lot of credit for having shown that good times and good fellowship are not always dependent upon food, drink and tobacco.

A report on manufactures and mechanical industries for Ohio, issued by the census bureau last week, shows a capital of \$605,792,266 invested in the 82,398 establishments in the state. The report shows that there has been an enormous growth in the manufacturing and mechanical industries of Ohio during the last half century. Of the various causes which have contributed to the early development and steady advance of manufacturing in the state, its waterways, and particularly its canals, are mentioned as the most important among its commercial advantages. Some parts of the state, it says, were opened up by the construction of railroads, but the effect of these water routes in the localization of manufacturers is still very marked, for in 1900 the great manufacturing centers of Ohio were located at the lake and river termini of the two principal canals.

The action of President Roosevelt in directing the prosecution of the

great meat sellers for any possible violation of the federal statutes is thoroughly commended from every financial and political point of view. Any halt in prosperity and general public well being at this time is to be dreaded because many people do not quickly discriminate in these matters and are likely to arrive at conclusions which, however unfounded, might prove dangerous to the Republic. Any occurrence making for the success of the Democracy this fall or in the presidential election two years hence is to be dreaded. As one citizen aptly expresses it, "The election of a Democrat, no matter who he is, as our next president, will make a business graveyard in this country for four years thereafter."

The Ohio State Journal voices widespread sentiment when it says it is likely that everybody is satisfied with the prospects for the Republican state convention and the ensuing campaign except the Democratic politicians. The latter are greatly worried because there are no signs of discord and no likelihood of a factional division in the Republican ranks this year. The details for the convention have been satisfactorily agreed upon without developing the slightest evidences of friction, and this makes the Democratic heart unhappy. The bourgeois are obliged to stand around on the corners and rail at the Republican programme as being "cut and dried," and applying to it other terms which they know are false and which express nothing so much as Democratic disgust over conditions that point inevitably to Republican victory.

In a recent discussion called forth by the prevailing high price of beef, Prof. H. W. Wiley, chief chemist of the department of agriculture, earnestly advocated the more general use of cereals as food. Prof. Wiley said that without going into the question of price, Indian corn, wheat, oats, rye and rice contained, so far as actual nourishment was concerned, everything necessary to supply the waste of the body and give the necessary heat and energy to the system, and said it was very well known that men nourished very extensively on cereals were capable of the hardest and most enduring manual labor. The workmen of the country, he said, should consider this point and accustom themselves more and more to the use of cereals in their foods. When properly prepared and served, they were palatable as well as nutritious, and their judicious use would tend to diminish the craving for meats, which, however, it was not advisable to exclude entirely from the diet.

The current issue of the Outlook contains a remarkably clear survey of the situation involved in the charges of cruelty brought against the United States soldiers in the Philippines. The Outlook believes that as a whole the army has conducted itself as an American army ought to conduct itself and that if the specific charges now made shall be proven to be true, the acts of cruelty will still be sporadic, and so foreign to the nature and practice of the American soldier as to gain an added horror from the fact that they were abnormal. "The humanity of the army," it says, "cannot be discredited by a single act of cruelty, nor can these acts of cruelty, if multiplied tenfold, affect the question of the duty and authority of the United States government in the Philippines." The majority of the American people agree with this view of the situation. They don't intend to allow a few politicians who are opposed to the policy of the administration ruin their faith in the American army.

HOUSES BURNED.

Both Fires Resulted From Defective Flues—Because of Their Isolation Little Could be Done to Save Them—Some of Their Contents Preserved.

The residence of Joseph Griffith, at Forty Corners, two miles northwest of Massillon, was burned to the ground Saturday evening, the fire originating about 8 o'clock. Mr. and Mrs. Griffith were not at home at the time, the place being in charge of their children, the oldest about fifteen years. The fire resulted from a defective flue, and was discovered by John Evans, a neighbor. A few things were carried from the house while the fire was in progress. The insurance on the house and contents was \$800.

FARMHOUSE BURNED.
Canal Fulton, April 28.—Fire did much damage to the house on Bernard Schrader's farm, west of town, Sunday morning. The fire originated from a defective flue. A considerable part of the contents were saved. The loss will not exceed \$1,000. The house was occupied by Jacob Butzeer and family.

Read the "want" column daily

THE TOWNSHIP SCHOOL BOARD.

President Smith Announces His Committees.

LEVY FOR NEXT YEAR MADE.

The Board Decides That \$4,500 Will be Required for Its Expenses—School Term May be Made Eight or Nine Months at Option of the Director.

The reorganized board of education of Perry township, Cyrus Smith president, is now composed of Mr. Smith, John Boerner, G. C. Pontius, Samuel Sterns, H. E. Baer, Cornelius Swier, George C. Leeper, D. M. Kerstetter and W. H. Allen. The following committees have been announced:

Text books and teachers—Allen, Pontius and Swier.

Building and grounds—Leeper, Kerstetter and Boerner.

School supplies—Leeper, Baer and Kerstetter.

Finance—Clerk Sonnhalter, chairman ex-officio, Allen, Swier and Pontius.

Rules and regulations—Baer, Boerner and Stern.

Hereafter the board will meet at 1 o'clock in the afternoon instead of at 9 in the morning.

The salary of the clerk, W. A. Sonnhalter, is to be continued at \$150 a year.

Each director has authority to extend the school term of his district one month if necessary. The regular term is 8 months. Most of the directors favor the additional month.

The board's visiting committee has made a general inspection of all the buildings, and has noted where repairs and improvements will be needed.

The board has decided that \$4,500 will be required for the current expenses during the ensuing year, and the levy is to be made accordingly.

Note the sleepy, tired look in your eyes. The fire of youth no longer burns. Take Rocky Mountain Tea. Brings back forgotten joys. 35 cents. Ask your druggist.

FOUGHT ON COFFEE.

Admiral Dewey's Letter to a Canton Woman.

Canton, April 29.—Admiral George Dewey has gone on record once more on the question of whether liquor was used at the battle of Manila Bay by the sailors. This time it is in a letter to a Canton woman, Mrs. Carrie F. Herspool, of 36 South McKinley avenue. In the letter he denies that liquor was used by the sailors during the action.

Mrs. Herspool teaches a class of twelve boys, ranging in age from ten to thirteen years, in the Sunday school of the First Presbyterian church. Recently they had a temperance lesson, and in the course of it several of the boys said that when they got older they could use liquor just like they read of Dewey's men, who took liquor every twenty minutes during the battle. A letter was sent to Admiral Dewey, and the following was his prompt response:

Washington, April 24, '02.

"Office of the Admiral.

"Dear Madam:—Acknowledging the receipt of your letter of the 22nd instant, I am very glad to have an opportunity of correcting the impression which you say prevails among your Sunday school scholars that the men of my fleet were given liquor every twenty minutes during the battle of Manila Bay.

"As a matter of fact every participant, from myself down, fought the battle of Manila Bay on coffee alone. The United States laws forbid the taking of liquor aboard ship except for medicinal uses; and we had no liquor that we could have given the men, even had it been desired to do so.

"Very truly yours,

"GEORGE DEWEY."

Two Very Important Industries.

While it may seem a broad statement, it is probably true, that our railroads, with their immense capitalization and army of employees, form one of the most important industries of the country. The other very important industry is the manufacture of that celebrated family medicine, Hostetter's Stomach Bitters. It is compounded with the greatest care, and contains nothing that would injure the most delicate system. It is backed by a record of fifty years of cures of sick-headache, indigestion, flatulency, belching, dyspepsia, liver and kidney troubles and malaria, fever and ague. It is a splendid spring medicine and blood purifier, and as a tonic for the run down system it is unequalled. Try it. Our Private Stamp is over the neck of the bottle.

WILL SURELY WIN.

President Legg on Bellaire Conditions.

Robert Legg, of East Greenville, sub-district president of the United Mine Workers, arrived in the city Saturday from Bellaire, where he attended a meeting of the state executive board of the organization. Mr. Legg says that affairs at Bellaire, where the DeArmits are making an attempt to break up the union, are in a very encouraging condition. Hundreds of non-union men brought there by the operators, he says, have been induced to return whence they came, and many of those who went into the mines at the beginning of the trouble have been persuaded to quit. Mr. Legg thinks the miners will surely win.

The Bellaire trouble is due to an attempt on the part of the DeArmits to compel the miners to accept a large reduction in wages. The union men are encamped near the mine, and every train and road leading to the town are closely watched by committees which try to induce the imported labor to join their ranks instead of going into the mines.

FAIR FORCES UP AND DOING.

The Carnival This Year an Assured Fact.

VIEWS AS TO TIME AND PLACE.

August a Much Favored Month, and the Schuster Property, in North West Street, Regarded as a Good Location—The Situation Generally.

Ex-Mayor Jacob Wise has not yet called a meeting of the street fair association to begin active work for this year's carnival, but he intends to before long. At the recent banquet of the association, the general sentiment was strongly in favor of another fair, and a canvass today shows that there is no change in the sentiment. There are various ideas as to where, when and how the fair should be conducted, but that of W. B. Martin, one of the most energetic and enthusiastic members of the association, meets with most general favor.

"I believe," says Mr. Martin, "that the Schuster property, in North West street, east of the brewery, is admirably adapted to our purpose. We could enclose the whole grounds, build a temporary bridge across the river at the foot of Muskingum street, and have the main entrance at that point. The Schuster place is plenty large enough for the whole show. The earlier we give the fair the better, I think. August I regard as the most favorable month. Street fairs are a good thing for a town. I haven't heard of any town hereabouts having made plans for any."

Canal Fulton will have another fair this year. The committee began work last winter, and the intention is to make it the biggest thing the town has ever had.

Mayor Takes the Oath.

The Uhrichville Chronicle, of Saturday, says: Charles C. Kline was sworn in as mayor last night. He came from Zanesville on the accommodation yesterday evening. He went to the city hall about 9 o'clock, and Mayor Reed administered the oath. Mr. Kline was seen by a Chronicle reporter at the mayor's office this morning. He said that he did not run away, and that it was always his intention to take the office. He had gone to Zanesville, and was there taken sick. He knew he had ten days in which to qualify, and intended to be back before the time expired. When asked about the dispatches from Zanesville which have appeared in the city papers, quoting him as saying that the office had been forced upon him and that he would not have it, Mr. Kline said that he had not seen a reporter while he was in Zanesville, and never made such statements.

Advertised Letters.

List of letters remaining unclaimed in the postoffice at Massillon, April 29, 1902:

DAVIS, Nancy S.	MILLER, Miss Hattie
Kiefer, Miss Margaret Ray, Mrs. Clara	SMITH, Miss Ida
LEMANN, Miss M.

Finning, Wise	Shuler, J. F.
Little, John	Stoner, Lorin
Rinker, Albert	Thompson, H. S.
Vigles, James H.	
FOREIGN	
Phillips, John M.	

Persons calling for the above named letters will please say advertised.

LOUIS A. KOONS, P. M.

Headaches, dizzy spells, bad blood, rheumatism, indigestion, constipation, absolutely cured if you take Rocky Mountain Tea made by Madison Medicine Co. 35 cents. Ask your druggist.

A SAD OCCASION.

Meeting of the Woman's Cemetery Association.

RESOLUTIONS OF RESPECT.

The Meeting Was the First Held Since Death of Mrs. C. McC. Everhard, President of the Association Since Its Organization in 1895—Entertainment Committee's Report.

The first meeting of the Massillon Woman's Cemetery Association since the death of its president, the late Mrs. Caroline McCullough Everhard, was held in the public library building Tuesday afternoon, the vice president, Mrs. Flora R. McClymonds, presiding. The occasion was a sad one to all. The sentiment of those present was expressed in the following resolutions which were unanimously adopted:

We, the members of the Massillon Woman's Cemetery Association, desire to express our sorrow upon the sudden death of our beloved president, Mrs. Caroline McCullough Everhard. Mrs. Everhard was elected president when the organization was formed. September 9, 1895, was unanimously re-elected each succeeding year and throughout this long period of service her untiring sympathy with and devotion to the work was a constant incentive to all the members. When others had lost interest, her zeal was unflagging. Only once in the history of the organization was she absent from a meeting. We all feel that the most acceptable tribute to her memory would be to take up the work with renewed interest and to devote more time to the cause so dear to her heart. Therefore, be it

Resolved, That a suitable floral tribute be sent.

Further, as a mark of respect to her memory, that her place as president remain vacant until the next annual election.

Further, that we extend our heartfelt sympathy to the members of her family in their great affliction.

Resolved, Further that a copy of these resolutions be sent to the family, to the daily papers and recorded in our minutes.

FLORA R. McCLYMONDS, Acting President.

B. V. R. SKINNER, Sec'y.

Previous to the adoption of these resolutions, the chairman of the entertainment committee, Mrs. Josephine Drake, made a report concerning the rummage sale given for the benefit of the association during the week commencing January 27. Mrs. Drake said in part:

"Although the time was possibly not the best that might have been selected, the articles for sale were many and varied, including household goods, wearing apparel and many useful as well as useless articles too numerous to mention. Our customers were many, our prices seemingly satisfactory. Saturday night, by judicious sales, our counters were cleared. The chairman feels the association to be under many obligations to J. W. McClymonds, who gratuitously furnished the room, including heat and light, to Lawrence O'Toole, of the city street car lines, for distributing bills and to Messrs. Ricker and Norwood who gave so generously of their time and labor." The amount realized from the sale was \$129.71. The report closed with the following feeling reference to the late president, Mrs. Everhard:

"Sad indeed is our heart today in rendering this report without the presence of the one so interested in the successful outcome of the sale which she had planned and towards which she gave so untiringly of her strength and means, looking in upon us almost every day with cheery words, inquiring frequently by telephone of our needs and supplying them—ever wishing to be helpful even in her hours of suffering."

It was decided to hold no further meetings until the annual election in November.

Resolutions of Respect.

The board of trustee of the McClymonds public library at their last meeting formulated and passed the following resolutions:

We, the trustees of the McClymonds public library are called upon to mourn the death of one of our number, Mrs. Caroline McCullough Everhard, who entered into rest April the fourteenth, nineteen hundred and two.

With hosts of other friends we are permitted to express our profound grief for her death. She will be missed in our library work, in which she was deeply interested, from the first announcement that generous men and women of our city had given a building and money for a public library to the time of her death.

During the period of organization

her good judgment and business ability made her a valuable member. Her trained mind and fine literary taste eminently fitted her for her work on the book committee. By her genial manner and her earnest desire and labor for the success of the library she greatly endeared herself to her co-workers. Therefore, be it

Resolved, That the trustees of the McClymonds' public library attend the funeral.

That a suitable floral tribute be sent. Further, as a mark of respect to her memory that the library be closed on the day of the funeral services.

Further, that her place as a member of the library board remain vacant until the next annual election.

Resolved, That we extend our sincere sympathy to the members of her family in their great sorrow. May they find consolation in the thought of her useful life—of her affection for her home, her tender thoughtfulness of the aged and the orphan, and of dumb animals, her love for all beauties and marvels of nature.

Resolved, That a copy of these resolutions be sent to the family and inscribed on our records.

Signed J. W. McClymonds, HELENA R. SLUSSER, EDMUND A. JONES, C. A. GATES, FRED H. SNYDER, JAMES C. CORNS.

HE WAS FINED \$40.

Penalty of a Farmer Who Fished Unlawfully.

USED A FUNNEL-SHAPED TRAP.

Caught Fish by the Hundred-weight, and What He Could Not Eat Himself He Gave Away—Was Brought Before Squire Sibila by Constable Graham.

Constable John Graham brought B. F. Whitmer, a farmer of near Elton, before Squire Sibila, Tuesday, charged with catching fish in a trap. Whitmer pleaded guilty, and was fined \$40 and the costs, which he paid. The affidavit was made by Deputy Game Warden Dangelesen.

It is said that Whitmer had dammed Wolf creek, and by the use of a funnel shaped contrivance made it impossible for fish to pass a certain point without being trapped. In consequence, it is said he had fish by the hundred-weight at his house. He gave every person he liked ten or fifteen pounds whenever they called, and had fish on his own table three times a day. The fish caught were mainly suckers.

Whitmer had been trapping for some time when arrested. He candidly told the court that he knew he was doing wrong, but that he liked that way of fishing better than by hook and line.

SHAFFER WILL WIN.

Tighe Withdraws, But There Will be Opposition.

Wheeling, April 30.—It is now practically certain that President Theodore Shaffer is the big man of the Amalgamated Association. The convention, with few dissenting voices, indorsed in toto his annual report. The committee on president and other officers' reports reported favorably on the statements entrusted to it and the recommendations were ratified by the convention. The most important of the reports was that of Mr. Shaffer. In many respects it was the most interesting document ever issued by an Amalgamated president. It gave the history of the strike and his explanation of every one of his acts which aroused criticism during the momentous struggle. The president based his hopes upon his report and it proved that he judged wisely. The action of the convention is a vindication of his entire course.

It is not likely now that there will be much opposition to Mr. Shaffer's re-election. The Associated Press can state authoritatively that Assistant Secretary Tighe will not be a candidate for the presidency. His name has been mentioned in connection with the office and while he has never personally said he would run, it has been understood that he would be willing to make the race. However, it is learned that Mr. Tighe informed his friends that he would not permit his name to be mentioned in connection with the office. That he will be re-elected to his present position goes without saying.

Mr. Tighe's refusal to run against President Shaffer does not mean that he will be elected without opposition. The friends of Thomas Williams, of Zanesville, a veteran member of the Amalgamated, who has been in its service since its formation from the Sons of Vulcan, and the Rollers' and Heat-ers' Union, insist that he shall be a candidate and will present his name to the convention.

LOCAL HAPPENINGS

Discovered this Week by Independent Investigators.

T. McClelland has been called to Mt. Vernon by the illness of his wife.

Mr. and Mrs. George Falke have moved from the Falke block in East Main street to No. 20 North East street.

Mrs. Philip Wendling has returned from Brooklyn, N. Y., where she has been spending the winter with her daughter, Mrs. Ella Zorger.

The Cleveland, Lorain & Wheeling railway gravel pit has been closed down, and the workmen, principally Italians, have been removed to other points.

Mrs. F. Fogel, of 42 Warwick street, Tuesday afternoon was cleaning house and in using a hatchet, brought it down upon her left hand, severing two fingers.

Sunday afternoon twenty friends of Jacob Seifert drove to his home, four miles north of town. The affair was in the nature of a surprise and the visitors remained for tea in the evening.

Samuel Stern, recently appointed roadmaster of Perry township, took the oath of office before Township Clerk Sonnenhalter today. He also filed his bond of \$500. His bondsman is J. H. Hunt.

Sylvanus Royer came down from Barborton today to attend the Boerner-Wagner marriage. Mr. Royer says that Barborton's boom is still on, that old factories are enlarging their forces and that new factories are being projected.

The funeral of the late Samuel Indorf was held from the St. John's Reformed church Sunday afternoon at 2:30 o'clock. Rev. J. E. Digel conducted the services. The body was then taken to the receiving vault at the Massillon cemetery.

Mrs. James H. McLain has sold her greenhouse and flower store to William Kreiter, formerly with C. L. McLain & Company. The greenhouse is located in East South street, and the flower store at 44 East Main street. Mr. Kreiter will take possession June 1.

James McQuate, of this city, left today for Detroit to take possession of \$2,000, which comes to him from a brother, recently deceased. The brother, unbeknown to Mr. McQuate, carried that amount of life insurance, the policy being in the Massillon man's name.

Patrick Harney, of this city, and Miss Mary A. Kennedy, of West Brookfield, were married at St. Barbara's church West Brookfield, Tuesday morning. Mr. and Mrs. Harney will reside near this city. The groom is a miner. He is prominent throughout the district as a member of the United Mine Workers.

In his brief address at the funeral of the late Frederick Thompson, at the African M. E. Zion church, Tuesday afternoon, the Rev. J. E. Transue told the life story of the deceased and spoke of his honesty, industry and religious zeal. The Rev. E. L. Bell, of Canton, had charge of the services. The funeral was very largely attended.

M. M. Kerstetter has left for a tour of several months in the South and West. He will visit Chattanooga, Birmingham, and New Orleans, also Beaumont and Eagle Pass, Tex., thence to the City of Mexico, where he expects to remain until after the celebration of the Mexican "Independence Day," returning home via Los Angeles, San Francisco, Salt Lake City and Denver.

A special to the Cleveland Plain Dealer from Urbana announces the marriage of Jerome B. Zerbe, of Cleveland, to Miss Susie Eichelberger, at the home of the bride's parents, Mr. and Mrs. Eichelberger, at Urbana, Wednesday morning at 9 o'clock. Mr. Zerbe is one of Cleveland's most prominent business men and is well known in Massillon.

What might have been a serious accident occurred Sunday night at 10:30. As the street car had reached the top of the West Main street hill a stone three inches in diameter was thrown through the window, hitting C. A. Forest squarely on the back and almost stunning him. Mr. Forest is quite sure that the stone was not intended for him but thinks it might have been thrown by some one holding enmity towards the street car company. No clew has been found as to the perpetrator of the deed.

The marriage of Miss Florence Lung to William Huberty, of Canton, took place at St. Mary's Catholic church Tuesday morning. The attendants were Miss Mamie Lung, sister of the bride and Thomas Huberty, cousin of the groom. The bride's gown consisted of a tan broadcloth skirt and a pink taffeta waist. The bridesmaid wore brown broadcloth. A reception took place after the ceremony at the home of the bride's parents, Mr. and Mrs. Michael Lung, in Third street. Mr. and Mrs. Huberty will reside in Canton.

On Saturday last Charles M. Leonard disposed of his saloon and restaurant, in North Erie street, to Frank Kracker and William Wagoner, the

new firm taking possession Monday. Mr. Leonard, who has made hosts of friends during the time he has been in business in this city, has made no definite arrangements for the future, but expects to remain in Massillon, and contemplates building a home in the eastern part of the city during the summer. Mrs. Leonard and daughter will spend the summer with relatives in New York state.

A FOURTH OF OLD-TIME KIND.

Mayor Bell Wants Rousing Celebration.

ONE THAT MEANS SOMETHING.

The Mayor Will Begin the Circulation of a Subscription Paper to Raise Funds—The Street Fair Project Endorsed by the Mayor.

Mayor Bell says he wants Massillon to have a Fourth of July celebration. "I am a believer in celebrations of this kind," remarked the mayor, Wednesday morning. "If there is a holiday in the calendar that the American people ought to observe it is the Fourth of July. It means more to us than most holidays, and the way to bring its meaning forcibly to the minds of Young America, as well as to those of older growth, for we are all to prone to treat these matters too lightly, is to have booming cannon and red fire, in addition to speeches and patriotic exercises. I expect to call upon citizens with a subscription paper, hoping in this way to raise sufficient funds for the fireworks. One or other of the societies of the city, I suspect, in accordance with their usual custom, will have a picnic or other celebration of similar nature on that day, but the fireworks we want as a down town affair."

The mayor thinks well of the street fair "Street fairs are a good thing," said he, today, "and I trust that the association will see its way clear to provide one for Massillon this year. I certainly stand ready to do all I can to assist."

BOERNER--WAGNER.

Well Known Young People Married Thursday Morning.

Tuesday morning at 8:30 Herman Wagner, of Canton, and Miss Mame Boerner, of 99 Plum street, were married in St. Joseph's church by the Rev. J. F. Kuebler. Many friends and relatives were present. The bride wore a gown of tan grenadine silk over white silk and carried a prayer book. Miss Clara Wagner, sister of the groom, acted as bridesmaid and was dressed in a green mousseline dress. She carried pink roses. Joseph Balow, of Canton, was best man. The music was furnished by Miss McBride, Miss Adaline Erle and E. Tordt. Mendelssohn's wedding march was played by Miss Emma Zeisler, organist of St. Joseph's church.

Dinner was served to the relatives and a few intimate friends of the bride and groom at the Boerner residence at 11 o'clock. Mr. and Mrs. Wagner will leave tonight on the 10 o'clock train over the Pennsylvania road for Washington, New York and other points East. On their return they will make their home in Canton.

OBITUARY.

SAMUEL P. BACHTEL.

Funeral services for the late Samuel P. Bachtel will be held at the deceased's Jackson township home at 1 o'clock Thursday afternoon. Interment will be made at the Mudbrook cemetery. Mr. Bachtel's death occurred suddenly at 10 o'clock Tuesday, while he was visiting at the home of a son in Akron. The deceased was 70 years old, and was well known in this city. He was the father of Harry Bachtel, formerly a draughtsman employed by Russell & Company.

MRS. MAGDALENA MATTHEW. Crystal Spring, April 29.—Mrs. Magdalena Matthew, aged 82 years, died at the home of her son, Charles Matthew, at 1:40 Tuesday afternoon.

DEATH OF O. PORTER.

Investigation of Circumstances to be Made. M. I. Stock, of Canal Fulton, and Howard Porter, of Crestline, were in Massillon Wednesday, on their way to Pittsburgh, where they will make a thorough investigation of the circumstances surrounding the death of the late Engineer Oscar Porter, who lost his life in a wreck on the Pennsylvania railway. Howard Porter, who is also a Pennsylvania engineer, was a brother of the deceased. The body of Mr. Porter was taken to Canal Fulton for burial.

ELECTION BOARD COUNTING VOTES.

All the Precincts Are in But One.

NO DOUBT AS TO THE RESULT.

Assignment of Cases for Next Week's Sessions of Common Pleas Court—Grand Jury Will Investigate the Case of Mrs. Robinson, Charged With the Murder of Robert McNair.

Canton, April 30.—The county board of election will commence the canvass of the vote at the recent election this afternoon. The returns have been received from all precincts in the county except one—Bridgeport, in Marlboro township. Only five votes were cast in Elton precinct. For county commissioner, Burnheimer will have a plurality of from forty to fifty, and Schiltz will have a majority of about eighty over Gavin, for coroner.

Mrs. Rose Yoder came here from Coats, Ind., to claim the estate of the late Philip Yoder, who died a few months ago leaving property valued at \$12,600, partly cash in Chicago banks. She succeeded in securing a widow's allowance of \$1,000 for one year's support, and stands a good chance of getting the whole estate. She claims to be the undivored widow of Noder, although they had not lived together for many years. Neighbors and acquaintances of Yoder thought him a widower, and they were also greatly surprised at the value of the estate he left.

The May term of common pleas court will open Monday morning, May 5. Court will be held by Judge Harter in room No. 1, and by Judge Ambler in room No. 2. The cases assigned for the week will also be tried to the jurors, and it is likely to be several weeks before the petit juries are impaneled. The grand jury will convene Monday. Prosecutor Day says that there are quite a large number of cases to be placed before the jurors for indictment or rejection and that the session will probably be an unusually long one. These cases include Mrs. Sarah Robinson, accused of the murder of Walter McNair, in Massillon. The assignment of cases for the first week of the term is as follows:

ROOM NO. 1—JUDGE HARTER.

Monday, May 5.—Hearing motion docket; The Troy Carriage Co.'s receivers vs. Borgold et al.; Forgrson vs. Pool et al.; George D. Harter Bank et al. vs. Canton Pottery Co.; Friedman vs. Meredith et al.; Southern Ohio Loan and Trust Co. vs. Mangus et al.

Tuesday—Mahaffey vs. Bjorkman et al.; Hoffman vs. Hoffman et al.; Kolb vs. Kolb; Dodd vs. Wrought Iron Bridge Co.; Reynolds vs. Myers.

Maser vs. The L. E. A. & W. R. Co.; Hammerly vs. Essig Window Co. et al.; Vickers vs. Davi et al.; In matter of the estate of Samuel Hoffman, deceased; Rohm vs. Rohm.

Thursday—Wernet vs. Thierry; Woodling vs. Woodling; Hock vs. Hock et al.; Miller vs. Correll; Henry vs. Henry.

Friday—Lawbaugh vs. Lawbaugh et al.; Russell Co. vs. Reed, auditor; Harter et al. vs. Harkins et al.; Hoffman vs. Hoffman; Lothamer vs. Lothamer et al.

ROOM NO. 2—JUDGE AMLBER.

Monday, May 5.—Hearing motion docket and impaneling grand jury; Graham vs. Vet. Mem'l Ass'n et al.; Madden vs. Webb et al.; Williams vs. Balizet et al.; Dem. Pub. Co. vs. Harmony, assignee; Hambuch vs. Anseoun et al.

Tuesday—Barry vs. Scott; Martin vs. Martin; Eyster vs. Eyster; McDougal vs. McDougal; Robinson vs. The Pennsylvania Co.

Wednesday—Fries' admrx. vs. Paul; Braucher et al. vs. Strauss, supervisor; Wagner, trustee, vs. Hoverland et al.; Ohio ex rel Bowman vs. The Sandvillie & Waynesburg Railroad Co.; Tindall vs. Tindall.

Thursday—Tiesche vs. Tiesche; Coates vs. The Stark County Telephone Co.; Russell's guardian vs. Class et al.; Seibert vs. Seibert; Willis vs. Devore.

Friday—Sprankle vs. Styer et al.; Renzenbrink vs. Renzenbrink; Zettler vs. Hammerly; Rice vs. Rice; Melbourne vs. Melbourne.

Marriage licenses have been granted to Herman J. Wagner and Mary A. Boerner, and Malvern D. Hill and Editha Mae Keller, all of Massillon.

LOCAL ROAD INTERESTED.

W. & L. E. Part of Great Transcontinental Line.

Baltimore, April 30.—The first branch of the city council last night passed the ordinance accepting the Fuller syndicate's bid of \$8,551,370.45 for the city's holdings in the Western Maryland railroad. The ordinance was then sent over to the second branch, where it was introduced as a substitute for the measure already under consideration in that branch, and received its first reading. The substitute will receive its second reading in the second branch tonight and it is expected that it will be ready for the mayor's signature tomorrow night.

The members of the Fuller syndicate declare it is their intention to connect the Western Maryland railroad as rapidly as the work can be done with the Wheeling & Lake Erie, and through it with the Wabash system and its connecting lines, thus making Baltimore the terminal of a great transcontinental line controlled by the Wabash.

SELECTING A SITE.

Arrangements for Wooster Glass Plant.

GROUND TO BE BROKEN MAY 15.

The Offices May be Situated in Wooster—H. F. Pocock to Have Charge of Both Plants—Heavy Work at the Local Plant.

Manager H. F. Pocock, of the Massillon Glass and Bottle Company, said Wednesday that the arrangements for the erection of the necessary buildings for the new glass plant at Wooster had been practically completed. The only cause for delay is the selection of the site. Options have been secured on property in opposite ends of the city. This is causing some delay in the final selection. The saloon element is very determined to secure the location in their end of town and citizens from the opposite side are just as determined in their efforts, but the West Wooster site will probably be chosen.

The company is still in search of the silica sand. One mine, twelve miles from Wooster, seems to furnish the best quality and more conveniences for shipping and this will probably be their source of supply. Mr. Pocock said that the site would be determined upon Saturday of this week. Ground will be broken May 15. About two hundred hands will be employed. One tank with sixteen ranges running day and night will furnish work for ninety-six glassblowers. The force of the local plant will not be affected, as new men will be employed.

It has not been settled as yet where the offices will be situated. There is some talk of moving them to Wooster. In any event nothing will be done along this line until the fall. H. F. Pocock will have charge of both plants spending part of his time in Massillon and part in Wooster.

Work at the local plant is heavy. It was necessary to open one of the tanks for a new night shift last week on account of the increased demand for lettered ware.

Headache.

Sick headache, nervous headache, tired headache, neuralgic headache, catarrhal headache, headache from excitement, in fact, headaches of all kinds are quickly and surely cured with

DR. MILES' Pain Pills.

Also all pains such as backache, neuralgia, sciatica, rheumatic pains, monthly pains, etc.

"Dr. Miles' Pain Pills are worth their weight in gold," says Mr. W. D. Kramer, of Arkansas City, Kan. "They cured my wife of chronic headache when nothing else would."

"Dr. Miles' Pain Pills drive away pain as by magic. I am never without a supply, and I give everyone should keep them handy. One or two pills taken on approach of headache will prevent it every time."

Mrs. JUDGE JOHNSON, Chicago, Ill.

Through their use thousands of people have been enabled to attend social and religious functions, travel, enjoy amusements, etc., with comfort. As a preventive, when taken on the approach of a recurring attack, they are excellent.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

FUNSTON FOLLOWED ORDERS.

Gen. MacArthur Testified Before Senate Committee.

Washington, April 30.—The Senate committee on the Philippines resumed the examination of witnesses in connection with the investigation of affairs in the Philippine islands. General Arthur MacArthur continued his testimony. He explained the statement in his annual report of June 30, 1900, that "The United States had acquired sovereignty by treaty and, in a way, owned the Philippine islands, but did not own the Philippine people," by saying that these conclusions were reached after conversation with an infinite number of people and observations and that they represented the bulk of the views of the National party. He then, in response to a question by Senator Patterson, described the different towns embraced within the American lines on the night of February 5, 1899, when the outbreak occurred and identified what purported to be a copy of the order of General Luna for the massacre of the foreign residents of Manila.

Senator Patterson sought to show that it was not difficult to deceive Aguinaldo by forgery and referred to his capture by General Funston, through a forged letter, signed Luna. General MacArthur, with considerable emphasis, declared that General Funston was not responsible in any way for any of the methods which obtained in the capture of Aguinaldo.

"I am responsible in that matter in every way and particular," said General MacArthur. "It was one of the deceptions practiced in war, and whatever responsibility attaches thereto I take."

After some discussion it was decided to postpone the taking of a vote on the proposition until this morning, at which time the committee also will pass upon the question of the advisability of sending a sub-committee to the Philippines to continue the investigation.

THE DANISH ISLANDS.

Ratification of Sale Treaty Depends on People.

Copenhagen, April 30.—The bill providing for the sale of the Danish West Indies to the United States, as amended by the landthing, came up for discussion in the folkething yesterday with the result that the party in the majority submitted a proposal as follows: The rigsdag (diet composed of both houses) approves the cession on condition that the inhabitants of the islands declare in favor thereof by a plebiscite similar to the one taken in 1867.

The folkething, by a vote of 98 to 7, adopted the majority proposal submitted. The landthing is expected to agree to the folkething's decision, with some minor modifications regarding the details of the plebiscite.

The anti-sale element is now devoting its attention of influencing the voting of the islanders themselves. It is known that one influential person has already mailed thousands of anti-sale circulars to the islands of St. Thomas.

HANNA IN DEMAND.

Offered \$10,000 for Eighteen Lectures.

Washington, D. C., April 30.—Senator Hanna asks that the announcement be made that he is not in the show business and will not go on the lecture platform.

Yesterday he declined an offer of \$10,000 to deliver eighteen Chautauqua lectures. Senator Hanna has received an invitation from every Republican state convention thus far held to be present and make an address.

He has been asked to deliver diplomas at twenty colleges, while the requests for his presence from young ladies' seminaries and minor educational institutions are too numerous to count. In fact, the applications for his appearance have become so frequent that his secretary is kept busy declining them.

BRAKEMAN HURT.

Caught Between Car Sills and Crushed.

BROUGHT HOME TO MASSILLON.

Business Continues Heavy on the Railroads—Record of 1891 on the Pennsylvania is Broken—Notes From the Local Yards and Officers—Much Sickness Among the Employees.

Brakeman W. E. Kannell, of the Pennsylvania railroad, is in bed today as the result of an accident at the Minglewood mine. Mr. Kannell runs on the coal train between Massillon and North Lawrence and has considerable coupling of cars to do. At 7 o'clock Monday morning, as he was making a connection at Minglewood, the cars came together with unusual force, catching him between the sills and crushing him severely. He was brought to the city and Dr. Culbertson took him to his home, 248 Richville avenue. While the injury is not considered fatal, Mr. Kannell will be confined to his bed for some time.

Business on the railroads continues to keep up and local railroad forces are doing extra work every day. While the traffic on the Wheeling & Lake Erie is not as heavy as Saturday and Sunday, it is still above the record, and Assistant Superintendent Nicols says if it continues the company will declare a big dividend this year. Mr. Nicols says the business is the best in the history of the line. Additional crews are being put on as rapidly as they can be brought together.

On the Pennsylvania business is also heavy and Agent Shoemaker says that the record for heavy traffic made in 1891 has been broken by this year's record. The C. & L. & W. is doing more freight hauling than ever before. Much of their business is transferred from the Pennsylvania. Massillon is the transfer point between these lines and consequently local forces have all they can do to look after the transfers. Agent Shoemaker says passenger traffic is also exceptionally large for this time of year.

Engineers Ira Cowan, George Whitmarsh, R. E. Smith and Fireman W. H. Eckroat, of the W. & L. E., are off duty on account of sickness.

UNION MEN ASSAULTED.

Result of Their Refusal to Cease Organizing Miners.

Fairmont, W. Va., April 30.—William Morgan, of the Massillon district, and Thomas Birke, of Springfield, Ill., national officers of the United Mine Workers, who have been endeavoring to organize the workmen of the non-union coal districts for some time past, were assaulted by three men here Tuesday. Birke was seriously hurt. Morgan was but slightly injured. Morgan and Birke were returning from a meeting of miners, before whom Morgan had delivered an address which created much enthusiasm. Morgan says that since they have been here their lives have been several times threatened by hired thugs who seek to prevent their meeting the non-union miners. The assault yesterday, he states, was made as a result of their refusal to leave the city when ordered to do so by detectives. Both Morgan and Birke say that the assault only makes them more determined to remain here and accomplish the work they have set out to do.

BRIGHT SPORTING OUTLOOK

Now that the outdoor season has been initiated it becomes interesting to glance down the list of outdoor sports and to consider the various champions that will be called on to defend their titles before the snow flies.

American sporting champions are probably worried more than those of any other country during the period they hold the supremacy, for we are continually producing athletes capable of approaching and in many instances exceeding the accomplishments of the accredited leaders. Few champions maintain their preminence for any considerable length of time.

In the college world, where track and field events take first rank in individual competition, the leaders in the various

JOHN DE WITT OF PRINCETON.

branches of sport seldom hold the records more than a year, although there are instances where great performers, such as Alvin Kraenzlein, Tewksbury, Richard Sheldon and other college stars kept at the head of the procession for several seasons and in some cases made records which will stand for years to come.

The golf championship contests are certain to bring about some surprises, and experts would not be greatly startled to see either of the three leaders, open, amateur and women's, replaced by fresh blood. Walter J. Travis, amateur champion, is without question the greatest golfer America has ever produced. The prevailing opinion is that he can stay at the top as long as he so desires, but amateurs, especially those of the west, have improved wonderfully during the last two years, and many close observers of the game predict that Travis will have to play the greatest game of his career—to play, as the current expression goes, "even better than he knows how"—in order to hold his title.

Willie Anderson of Pittsfield, Mass., open champion, and Miss Genevieve Hecker of Orange, N. J., women's champion, will face terrific onslaughts of competition from the rapidly increasing followers of the game. They are both consistent, able wielders of the sticks, and their conquerors will have to summon every ounce of power and deftness to their call.

In the intercollegiate world the champions that must be long defend their titles are legion. John De Witt of Princeton, the hammer thrower, who succeeded the mighty Richard Sheldon of Yale, Arthur Duffey of Georgetown, the greatest short distance runner in the world, Alfred Plaw of the University of California, shot put, and J. S. Spraker of Yale, high jumper, are among the leading champions who will find strenuous opposition on the part of aspirants for fame.

De Witt is very popular at Princeton, where he is better known as "Fat." He is reported to be in good form this spring and should repeat his triumphs. He is a good all round athlete, having had considerable football experience. Last year he was the mainstay of the Princeton eleven, and although the Tigers did not attach to themselves very much gridiron glory, De Witt's work was of true championship caliber.

Duffey is another prominent performer who is justly popular. He is a marvelous runner and has arranged to venture on another visit to England in quest of additional honors.

J. S. Spraker did the best work of his career last year. He captured the high jumping championship at Berkeley oval, New York, and defeated the Oxford and Cambridge jumpers at the same place. Spraker jumps with rare grace, apparently making no extreme effort when he clears the bar. His highest jump was six feet one-half inch, and he confidently expects to exceed that distance this season.

Alfred Plaw established his supremacy at last year's intercollegiate carnival, and during the winter in a trial on the California university campus broke his former record. The measurement was not official, however, and Plaw was not allowed to claim the mark.

All the foregoing men are to appear in the intercollegiate contests to be held May 30 and 31 on Berkeley oval, New York, and their performance will

be watched with interest by sportsmen from all parts of the country. So far as swimming is concerned, Le Moyne of the Brookline Swimming association, Boston, will probably have a clean sweep. This means, of course, in the amateur ranks. The retirement of E. Carroll Schaefer of Reading, Pa., practically leaves his former rival in a class by himself. Le Moyne is easily the best amateur short distance swimmer this country has ever produced. He uses a long, powerful stroke and should have no difficulty whatever in the outdoor races of the season. His tank swimming is his forte, for he has developed the knack of taking advantage of the turns until there seems to be but little room for improvement.

Frank Kramer of East Orange, N. J., and Bobby Walthour of Atlanta, Ga., are the acknowledged leaders of the cyclists now in America. Walthour was defeated last fall by Jimmy Mitchell, but as the Welsh lad is now on the continent dabbling again in turf affairs Walthour takes the top notch in the pace following division. Kramer leads the unpaced speed mer chants. Marcus Hurley of Buffalo is champion among the amateurs. Kramer had considerable difficulty in wrestling his title from "Major" Taylor, but this year the negro is not apt to give the Jerseyman so difficult an argument. Taylor appears to be declining in ability. However, he may spring a surprise on the wheeled experts and allow the field the unpleasant privilege of taking his dust.

Walthour did sensational riding last year until his defeat by the Welsh wonder, and if he can regain his form, say, of last August he will find many fast men on this side comparatively easy money.

William A. Larned is the tennis champion, and should Malcolm D. Whitman again return to active playing Larned will have his work cut out for him. Larned played nine successive years before winning the national supremacy, and his victory last year at Newport was very popular. Whitman, then champion, did not play. Larned is also the middle states, Maryland, Long Island (N. Y.) and Canadian champion. Miss Elizabeth Moore of Brooklyn is the woman champion, and the keen rivalry among the skirted experts is certain to cause spirited play in this year's tournament.

Several attempts will be made to lower the world's automobile record, established by Henri Fournier when he traversed a mile in 51.45 seconds. Fournier is also determined to lower his own mark and is building a specially designed machine to accomplish his end, and it is in automobile racing that great public interest centers. This

WALTER J. TRAVIS, CHAMPION AMERICAN AMATEUR.

sport is yet in its embryonic stages and this year will serve to give us an accurate idea as to its actual time killing possibilities. The chauffeur must be of iron nerve, and the man that lowers Fournier's record must take his life in his hands.

As to Wrestling.

The wrestler should have plenty of sleep and wholesome food. Fancy articles of diet will ruin an athlete's stomach, and when a wrestler's stomach goes back on him he has nothing left to do but to go back to the dreary mines. Many would be wrestlers do not pay enough attention to their legs. They imagine that they must work up tremendous arm and shoulder muscles and nothing else. This is a grievous mistake, as will easily be found out. The legs bear an important part of the strain and should be brought to the point of greatest possible strength. I find running a splendid means of keeping my leg muscles in form, and the exercise also has a beneficial effect on other parts of the body. Running strengthens the wind and stomach and acts as a general invigorator.

W. F. HERMAN, General Passenger Agent.

DR. KUTCHIN, Ex-U. S. Surgeon, Columbus, Ohio.

Is a graduate of two of the leading medical colleges in America. Licensed by the State of Ohio.

WHEN OTHERS FAIL, CONSULT

DOCTOR KUTCHIN

20 Years Experience

Recognized by the entire medical fraternity as the

LEADING AND MOST SUCCESSFUL SPECIALIST

IN THE WORLD.

He cures sick men and women, and has an established reputation for honesty and reliability. He keeps his promises.

The Bible says: "In the months of two or three witnesses shall every word be established." Here are several testimonials.

Dr. Kutchin has hundreds of such testimonials, but never publishes a name unless asked to do so. Read what these cured and happy people have to say.

WHY DON'T YOU SEE THE DOCTOR BEFORE IT IS TOO LATE?

SNATCHED FROM THE JAWS OF DEATH.

I was desperately ill for several years with Bright's Disease of the Kidneys. I had as good doctors as I could get in this part of the country, but they did not help me. I was almost blind, and the doctors gave me up to die.

My father took me to Dr. Kutchin, and while he would not promise to cure me, he gave me treatment. I have doctored with him for 4 months. Now I can go any place and am improving rapidly. I feel about as well as ever. I cheerfully recommend Dr. Kutchin. Will answer letters if stamp is enclosed. MRS. CHARLES YANNAYON, Rittman, Ohio.

THIS FRENCHMAN'S EXPERIENCE IS GOOD READING.

Versailles, O., April, 1901.

For seven years I never drew a well breath. I took Peruna and all the other patent medicines until I had enough bottles in my house to start a drug store. I tried seven or eight local doctors. Nothing ever helped me. Finally I went to see Dr. Kutchin, and he got me well as fast as a man can. Dr. Kutchin is very reasonable in his charges and I would have saved hundreds of dollars if I had gone to him sooner. I advise all the sick to doctor with him, for they will never regret it. JOSEPH SAINTIGNON.

CURED SEVEN YEARS AGO.

I was in deep trouble 7 years ago. In fact, I was about dead. I had a bad case of catarrh of the stomach and disease of the kidneys. I could not do a day's work without playing out. I was bloated, nervous, sleepless, with pain in my back and a tired, all-gone feeling. I used to get up in the morning more tired than when I went to bed. Nothing helped me. I had often heard of Dr. Kutchin and I determined to go and see him. He took my case and cured me. I owe my life to him. This was six years ago. I keep well and strong. My advice to the sick is—go and see Dr. Kutchin. If he can't do you good he will tell you so. He is reliable in every way, and you can depend on him. Will answer letters enclosing stamp. H. G. ABELL, Cortland, Ohio.

ONE PATENT WRITES.

"I was brought up on a farm, but at 20 was a nervous wreck. I was morose, despondent and gloomy, nervous, shaken eyes with dark circles; no ambition; cold hands and feet; memory poor; back weak; dragging feelings in joints; varicose; pain in the chest; countenance revealed the blight of my existence. Doctors treated me for consumption, but did not help me. I was recommended by a friend to try Doctor Kutchin. His treatment made me a different man. I was radically and permanently cured. My nerves opened up, and I felt myself a man in every respect—mentally and physically."

The doctor has been visiting this county for eight years.

LABOR'S NIGHT AT ALLIANCE.

Massillon's Delegation
Numbered 125.

CANTON WELL REPRESENTED.

Stirring Speeches by Well Known Labor Leaders—Thousands Unable to Gain Admittance to Opera House Where the Meeting Was Held—Morgan's Precaution to Guard His Works Against an Assault.

The local delegation of labor men who attended the sympathy demonstration at Alliance Saturday night left here at 6:30 on a special train over the Ft. Wayne. The local unions were all represented, and met at the Trades and Labor Assembly hall at 6 o'clock Saturday night. The Military band headed the procession to the depot. Only forty men were in line, but at the depot eighty-five joined the forces, making a total of one hundred and twenty-five representatives from Massillon. Justice Sibila and Councilman Peter Smith had charge of the delegation. The train left promptly at 6:30. Everybody seemed to be out for a good time, and the distance between here and Canton was spent in cheering for labor unions and in singing all the popular songs. Everybody joined in. When Canton was reached the band played as the Canton crowd, 175 strong, piled on the train. There were thirteen cars in the train, but only eight were used. The Canton delegation seemed to be as jolly as their Massillon brothers, and the trip to Alliance was made before the crowd realized it. Selections by the band and the Autawas quartette, of Canton, were given to pass away the time.

Some delay was experienced at the Alliance yards, occasioned by the arrival of other excursion trains at the same time. Alliance officials met the trains on their arrival and assigned positions in the parade, which took place at 8 o'clock. Massillon was honored with the front rank position. Headed by the union officials present and the speakers of the evening in cabs, the Military band, Massillon and Canton delegations, Sebring, Alliance with its band, Youngstown, Salem, Akron and Cleveland delegations, the parade moved up Main street to Arch, to Broadway, to Liberty and from there to the square where a stage had been erected and arrangements made for an open air meeting. Cheers for Mayor Bell were continually given by the Massillon delegation during the parade.

On account of the high wind prevailing and the threatened rain, it was decided to hold the meeting in the Craven opera house. There was a rush for seats at this announcement, as the building will only seat 800, and there were fully that many in the parade. Probably two thousand Alliance people had braved the wind in order to see the parade and hear the speeches, and all these immediately hastened to the opera house. The Massillon and Canton delegations had been well cared for and secured seats, but most of the following crowd was turned away. The evening's programme was opened by a selection by the band.

P. R. Johnston, secretary of the Alliance Machinists' Union, acted as chairman of the meeting and introduced the speakers, after stating the object of the demonstration.

P. J. Conlin, vice president of the I. of M., was the first speaker. After a few preliminary remarks and stories Mr. Conlin launched into an attack on the validity of the injunction which has been issued restraining the Alliance strikers from doing picket duty with the Alliance non-union men. Mr. Conlin believes that the injunction is the only weapon that can be used against the strikers, and this unjustly. He said in part as follows: "The trades union movement has come to stay, and no injunction ruling will wipe it out. Since the first organization it has grown and grown until now it has overcome all opposition and in point of members outnumbers the armies of the world." The audience was very appreciative and the speaker was frequently interrupted with applause. Mr. Conlin went on to show what calamities would follow the abandonment of the labor organization movement, the need of encouraging such organizations, and the power which it would bring to the unions. He said the way to bring these things to a successful end was to begin at the ballot box, elect laboring men to the political offices from the presidency down, and in that way eventually secure the recognition and encourage-

ment of the lawmakers. The speaker likened the present efforts of the strikers to the bronchos, who when threatened with capture by the lasso, instead of putting their heads together and kicking out, placed their heads in a position inviting capture and kicked each other. Mr. Conlin closed his remarks amid loud applause and the stamping of feet.

Secretary Johnston next introduced Michael Goldsmith, of Cleveland. Mr. Goldsmith was present in Massillon at the bartenders' banquet last week. He is one of the prominent organizers of labor in Ohio. Mr. Goldsmith began his remarks with the suggestion that all millionaires and opposers of organized labor leave the house, as their feelings would undoubtedly be hurt if they remained to hear him. His remarks were directed chiefly against the injunction. He also showed how the laboring man can help his cause by electing men of his own class to political positions, judgeships and the like, when it will be impossible to have an injunction of this kind issued, and said: "I want to tell you that this fellow Morgan isn't half as smart as he thinks he is. If he thinks organized labor has lost he is mistaken, because it can't lose. We may lose one fight here and there, but what is the other fellow losing while we are losing this one fight; and let me tell you, Mr. Morgan can't stand it any more than you can to lose. If he could crawl out of his present stand without admitting that the union has licked him he would do it in a minute and you would be back at work in the morning." Mr. Goldsmith said it was only a matter of time until organized labor would be a great power and laboring men would be elected to all public positions.

Mayor Bernard Bell was the next speaker scheduled but he was not present. The mayor said he had not been informed of his selection in time, and had other business on hand.

The Autawas quartette, of Canton, rendered a selection at this point and was loudly encored.

Max Hayes, editor of the Cleveland Citizen, was next on the programme. Mr. Hayes attacked the position Mr. Morgan had taken in refusing to arbitrate in this strike and said there ought to be some means of forcing the manufacturer to listen to arbitrating propositions as well as the strikers. He said it was an insult to the citizens of Alliance that Mr. Morgan should be allowed to import this riff-raff and scum of civilization into Alliance to take the place of the striking men into coming back to work at his own terms, and said that if Mr. Morgan wished to be fair he would make some concessions, listen to arbitration suggestions and bring about a harmonious condition. Mr. Hayes made a plea to the Alliance merchants who were present to lend their sympathy and encouragement to the strikers, as they were the men who had spent their wages in Alliance and made the town what it is, and said that the moment Mr. Morgan had applied for an injunction he had admitted that he was whipped and must seek the aid of outside forces to win. Mr. Hayes grew somewhat radical as his speech progressed and was severe in his denunciation of capital and the injustice done the working man by the moneyed man. He ended his remarks with a plea for a study of social and political economy by the laboring man.

John Mounot, of Canton, was next introduced. His remarks were along the same line as the others. His plan was for labor to organize and force recognition and respect. He said that if the present injunction was legal there was not a merchant in Alliance who could not be enjoined when he said his goods were better than his competitors.

Considerable anxiety was manifested by the police department, as it was feared some of the over-enthusiastic visitors might hunt up some non-union men and start trouble. Mr. Morgan, fearing just such an occurrence had issued orders to the employees of the shop to remain indoors and had placed a guard of fifty men around the grounds and works. About twenty special policemen were sworn in. No experiences of this kind resulted, however, as it seemed to be the intention of all to maintain peace at any cost.

A move on the part of Mr. Morgan which aroused the ire of Alliance strike sympathizers, was an effort to prevent the Alliance band from participating in the parade. Several years ago the band was known as the Morgan Engineering band, and Mr. Morgan owns many of the instruments and suits of the band. Shortly before the parade was to organize he sent for the suits and instruments. They were given up without a word. New instruments and suits were quickly furnished and no inconvenience resulted.

The local delegation left at 11 o'clock and reached Massillon at 11:45 without mishap, all feeling that the object of the excursion had met with complete success.

One hundred miles shortest to Chattanooga, Queen & Crescent Route.

"Colonist rates very low to the great west by the B. & O."

THE CITY AND THE TOWNSHIP.

Schiltz and Seacrist Lead
in Contests.

A VERY LIGHT VOTE IS CAST.

Frank Wagner Elected Central Committeeman Over Robert Higginbotham, This Being the Only Contest Outside of Those for Coroner and Commissioner—The Vote in Detail.

The only contests at the Republican primary election were for the nominations for coroner and commissioner. Schiltz outdistanced Gavin in this city. Seacrist ran ahead in the county commissioner race. The remainder of the ticket includes Thomas T. McCarty, for district judge; Robert W. Tayler, congressman; Maurice E. Aungst, probate judge; Robert H. Day, prosecuting attorney; Andrew Reese, infirmary director. The total vote in the city and township was 665. Following is the vote in detail for city and township in the commissioner and coroner contests:

FOR COMMISSIONER.

First ward, precinct A—Isaac H. Smith 40; Jacob M. Howenstine 5; Jacob Shengle 10; Martin L. Seacrist 49; M. C. Burnheimer 27.

First ward, precinct B—Smith 24; Howenstine 2; Seacrist 4; Burnheimer 10.

Second ward, precinct A—Smith 15; Howenstine 1; Seacrist 20; Burnheimer 15.

Second ward, precinct B—Smith 35; Howenstine 4; Shengle 4; Seacrist 40; Burnheimer 39.

Third ward, precinct A—Smith 17; Howenstine 1; Shengle 2; Seacrist 20; Burnheimer 10.

Third ward, precinct B—Smith 15; Shengle 1; Seacrist 20; Burnheimer 7.

Third ward, precinct C—Smith 7; Howenstine 2; Seacrist 13; Burnheimer 4.

Fourth ward—Smith 20; Shengle 1; Seacrist 16; Burnheimer 13.

Massillon precinct, Perry township—Smith 9; Howenstine 1; Shengle 2; Seacrist 18; Burnheimer 18.

Richville precinct—Smith 1; Seacrist 13; Burnheimer 1.

Totals for city and township—Seacrist 223; Smith 183; Burnheimer 144; Shengle 31; Howenstine 16.

FOR CORONER.

First ward, precinct A—Frank W. Gavin 47; Clarence F. Schiltz 78.

First ward, precinct B—Gavin 20; Schiltz 31.

Second ward, precinct A—Gavin 32; Schiltz 35.

Second ward, precinct B—Gavin 29; Schiltz 88.

Third ward, precinct A—Gavin 18; Schiltz 31.

Third ward, precinct B—Gavin 11; Schiltz 2.

Third ward, precinct C—Gavin 8; Schiltz 13.

Fourth ward—Gavin 20; Schiltz 34.

Massillon precinct—Gavin 8; Schiltz 37.

Richville precinct—Gavin 1; Schiltz 13.

Totals for city and township—Gavin 14; Schiltz 28.

COMMITTEEMEN.

There was but one contest for membership on the central committee. That was in precinct B, of the second ward, Frank Wagner winning over Robert L. Higginbotham by a vote of 63 to 60. The committee is now composed of Edward Jacoby, L. P. Slusser, Albert Ellis, Frank Wagner, H. B. Conrad, L. A. Koons, W. S. Spidle, G. H. Shauf, B. L. Ayres and Frank Doll.

COUNTY DELEGATES.

Following is a list of the delegates to the county convention: M. W. Oberlin, L. P. Slusser, T. H. Smith, H. V. Kramer, Joseph Brownsberger, William Hall, John Ellis, Harry Waite, J. J. Klotz, A. N. Kaley, Howard Lucas, Harry Griswold, W. S. Spidle, R. B. Crawford, sr., L. L. Volkmar, Horace Fasnacht, F. R. Reed and E. L. Ayres.

VOTE AT CANAL FULTON.

Canal Fulton, April 28.—The vote in the commissioner contest here was Smith 37; Howenstine 1; Shengle 7; Seacrist 27; Burnheimer 41.

For coroner—Garvin 88; Schiltz 31.

Mr. Slusser:—I have for years had frequent attacks of neuralgia and have used various remedies for the same without obtaining relief, but find that Slusser's Headache and Neuralgia Tablets relieve pain at once. I cheerfully recommend them to all neuralgia sufferers.

JONAS M. KEIM.

Note the sleepy, tired look in your eyes. The fire of youth no longer burns. Take Rocky Mountain Tea. Brings back forgotten joys. 35 cents. Ask your druggist.

Decision

of the

COURT of COMMON PLEAS,

Lucas County, OHIO,

rendered Nov. 14, 1901, which is now the law of Ohio:

"I am clearly of the opinion that Ariosa is within the proviso of the statute, and that it is not unlawful to manufacture and sell it."

GUARANTEE of Arbuckle Brothers

"We guarantee our 'Ariosa' and 'Rio' brands of Coffee to be a pure food, sound and healthful in every respect, prepared and marketed in strict conformity to the laws of Ohio; facts which we will maintain, at our expense, in any suit which the Commissioner may bring against us or any merchant selling the brands in question. All we require is prompt notice that prosecution has been instituted. We will do the rest."

ELMER SHAWBELL HURT. Runaway Monday Morning the Cause of Accident.

Elmer Shawbell, who drives the delivery wagon for Sonnhalter Brothers' grocery, was on Main street, west of the C., L. & W. railroad crossing, Monday morning collecting orders and delivering goods, when the horse became frightened at a dog and shied, taking the wagon and occupant down over the twenty-foot embankment onto the railroad track. Mr. Shawbell had no time to jump and was badly bruised and twisted in the smash up at the foot of the slope. He had a long deep gash on his forehead and is suffering from a badly twisted leg and will be confined to his bed for some time.

The wagon was almost totally wrecked. The horse after getting free ran across the W. & L. E. railroad trestle without injury other than a small cut on his foot and was captured at the end of the trestle.

Later — The condition of Elmer Shawbell is much more serious than

was at first thought. Dr. Culbertson stitched up the wound in the head and was quite positive that the skull was not fractured. The weakened condition of Mr. Shawbell prevented a thorough examination at that time. The doctor fears that the leg is broken close to the hip, in which case the injured man will be confined to his bed for several weeks. A false report to the effect that Shawbell had died as a result of the accident was circulated Monday afternoon.

THE BEE HIVE THE BEE HIVE

...BIG REDUCTION SALE OF....

Women's AND Misses' Tailored Suits

This season's Handsomest and Latest Style Garments going now at prices Far Below real value.
A most unusual opportunity, this, to get a very stylish and desirable suit at a remarkably little price

These are suits in Etons, Blouse and Gibson effects, also Double breasted and Reefer styles. Skirts are in the very newest styles with trimmed flouncings, also in plain flared effects. Almost all the jackets are lined with fine Taffeta. Skirts are percaline or silk lined and some have silk drop skirt. Materials are Coverts, Cheviots, Venetians, Hopsacking and Broadcloths in black, blues, tans, browns and grays.

\$9.50 for suits that were formerly \$12.00 to \$15.00
\$12.50 For suits that were formerly \$15.00 to \$20.00
\$15.00 For suits that formerly sold at prices varying from \$18.00 to \$25.00

Remember, this is a sale of this Spring's latest correct styles at Bargain Prices which are most unusual so early in the season

We have cheaper suits, of course, and they go in this sale at these almost ridiculous prices.

\$3.00 For Suits that have been sold at \$5.00 to \$10.00.
\$7.50 For Suits that were Worth \$10.00 to \$15.00.

NEARBY TOWNS.

NEWMAN.

Newman, April 30.—Mr. and Mrs. Timothy Ramsey spent Sunday with their brother, Thomas Ramsey and family, at their new home in Tuscarawas township.

Mr. and Mrs. Daniel Doubleday visited their parents, Mr. and Mrs. John A. Doubleday, at Bentley, last Sunday.

A. L. Lavers, of Baker City, Ore., called on his old schoolmates and former Newman friends on Monday, while enroute to New York on a business mission. The far West has dealt gently with Mr. Lavers, judging from his appearance, and we are pleased to learn that he is making life a success. It is fifteen years this month since he left Newman and yet he retains a warm feeling for his old home.

The festival given at the school house last Friday evening was not attended as largely as was expected, but those present had a royal good time. They realized \$2.75 for the organ fund.

William Bender, of Akron, and Miss Elizabeth Street were quietly married last Thursday evening at the home of the bride's mother, the Rev. O. E. Hall, of Massillon, officiating. They left Monday to make Akron their future home.

At our Republican primary election Saturday Thomas J. Morgan was elected county delegate and James Garney central committeeman.

CAMPCREEK.

Camp Creek, April 29.—Allen Keller, of this place, moved his household goods to Navarre last Tuesday, April 22.

The wild rabbits in this section have pecked eighteen peach trees and a number of others belonging to Samuel Netly during the past winter.

Thomas Owens, of this place, is on the sick list this week.

Mrs. Wm. Hawk visited at Mrs. Elmira Whitmore's residence last Sunday.

Services were held at Cross Roads church last Sunday, the Rev. W. S. Adams officiating.

Young people's meeting was in session at Justus last Sunday evening.

BOLIVAR.

Bolivar, May 1.—The funeral of Jacob Lehold, of Zoar station, who died Saturday, took place here Tuesday forenoon at 10:30 o'clock. Mr. Lehold died of appendicitis, at the age of 54 years, 8 months and 8 days.

Mrs. Isaac Shaffer and Mr. and Mrs. H. E. Case spent Sunday with relatives in Canton.

Mrs. Ed. Peoples and son Harold, of Mineral City, spent Sunday with J. O. Peoples and family.

Mrs. Wm. Garrett and Miss Clara Haglock went to Massillon to do their spring shopping Wednesday.

John Barth, of Missouri; John Brinkman, of Kansas, and quite a number of relatives of Seneca county attended Jacob Lehold's funeral Tuesday.

Messrs. Dan Lynch and Ed Miller, of Mineral City, were in town Monday.

Henry Rinsmaster, who was visiting his sister, Mrs. Louisa Myers, left Monday for Cleveland, where he is engaged in business.

GREEN OAK.

Green Oak, May 1.—Farmers are about all done sowing oats and are busy plowing for corn.

Clayton Arnold, who has been sick for the past three weeks with pneumonia, is able to be around again.

A number of the people of this place attended the funeral of the late J. M. Breneman at Orrville last Sunday.

C. R. Snively was in Columbus last week on business.

The Misses Stinson are having their house painted. A. C. Struck, of Dalton, is doing the work.

Levi Eberly is building a new summer house.

MCDONALDSVILLE.

McDonaldsville, May 1.—Samuel P. Bahtel, of this place, died suddenly Tuesday while on a visit to his son, Ford, in Akron. The funeral was held Thursday at Mudbrook. He was 73 years old.

Born to Mr. and Mrs. Nelson M. Keck, a daughter.

Mrs. Griffith, of Akron, is visiting her son, Thomas, who lives on the Schreiner farm.

Miss Iva Miller is on the sick list.

Charles Gross, bookkeeper of the Standard Oil Company at Akron, spent Sunday with his parents at this place.

Henry Goodenough built a pig pen last week out of the logs of an old house which have been used at least four different places before.

CANAL FULTON.

Canal Fulton, May 1.—"We have got to have a better observance of Sunday in this town," remarked Mayor McCadden, Tuesday. "There seems to be a little disregard for the day on the part of some citizens. We want a quiet Sunday."

Coal has been found on what was formerly known as the McDowell farm, west of the city, and other holes are being put down to test the contiguous territory. The drilling is being done by I. Stock, Joseph Griffith, George Head and John Morrison.

The German class continues to meet regularly in the high school rooms, and excellent progress is being made. The class is composed of high school and ex-high school pupils.

William and Peter Blank, the other day, invoiced the property of the Bernover Baking Powder Company, at Canton, whose plant and business they recently purchased for the Canal Fulton Cereal Coffee Company. William Blank says that the company is now incorporated but that the organization has not yet been completed.

Max Schumacher, of the Pioneer Cereal Company, says it is probable that concern will make the town a proposition for electric lighting.

"When we get everything in running order," said Mr. Schumacher, "we shall have the capacity to furnish light for both public and private purposes for the entire town."

Persons who style themselves "White Caps" have again taken their pens in hand. They have written to certain local citizens, threatening their lives, and emphasizing their words with drawings of hearts pierced by daggers, skulls and crossbones and such things. The notices were laughed at by the recipients and then thrown into the waste basket.

ROOMS CROWDED EVERY VISIT.

Dr. Schram, The Eminent German Specialist.

Will be at the

Hotel Conrad,

Massillon,

Tuesday,

May 6

From 9 a. m.

to 4 p. m.

SPECIALTIES—Diseases of the EYE, Ear, Nose, Throat and Stomach. Chronic Diseases require a searching diagnosis. Genital and Urinary Diseases cured by an entirely new method. Dr. Schram's examinations are similar to those given in the eastern and foreign hospitals where thousands of patients are seen every month, and where the doctor studied and learned his profession. No matter what the cause may be his long, varied and eminently successful career as a specialist in this field enables him to more thoroughly treat these diseases than those whose knowledge is not the result of actual experience and scientific study. The doctor has cured hundreds of cases of CATARRH, DEAFNESS and STOMACH DISEASES.

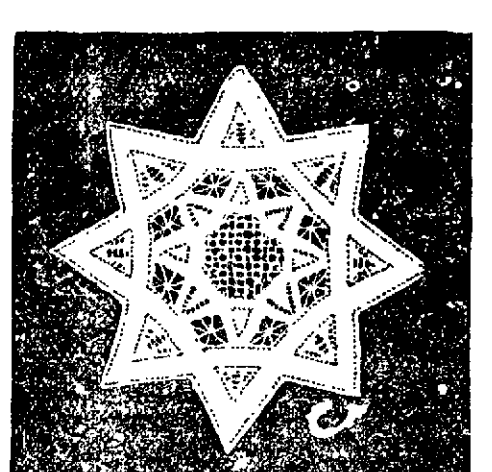

Consultation and Examination Free.

DAINTY LACEWORK.

Careful General Hints For Beginners and a Pretty Dolly Design.

In this day of lacemaking one accumulates bits of braid that may be satisfactorily utilized in making small lace dollies similar to the one shown in the illustration. They may be very effectively used on table or sideboard, especially under glassware. They also give a very dainty appearance to a toilet table and if desired may be lined with colored silk of the shade that predominates in the decoration of the room in which they are used, says The Designer, which presents the accompanying among a number of dainty dolly designs, together with the following hints on lacemaking in general.

In sewing the braid to the pattern small back stitches should be taken in the open edge of the braid on the outer edges of all the curves. This keeps the extreme outer edge of the braid exactly in place and keeps it from curling over upon itself, as it otherwise would be almost sure to do. Some lacemakers use embroidery

A LACE DOLLY.

hoops while filling in the stitches. To follow this method baste the braid on the pattern, whip the inside curves of the braid and draw down smoothly before it is stretched in the hoop. Great care should be used in handling while at work or the lace will become soiled and worn around the edge of the frame.

Some prefer to baste one or more thicknesses of stiff paper under the pattern to keep it in place while at work. A clean muslin cloth basted or pinned over the part that is not being worked on will keep the lace from becoming soiled and worn. If it is a large piece of lace, it should be so protected to preserve its freshness.

If a sharp pointed needle be used in filling in the stitches, the threaded eye should pass through the work first, with the sharp point resting on the thumb. This avoids splitting the threads or fastening the lace to the pattern.

In basting on the braid all knots and fastenings should be left on the under side of the pattern. They will greatly interfere with the work if left on top. Lace that requires frequent turning should not be finished at the edge with picot braid.

The design shown is a very dainty little dolly made of two kinds of braid. All the points are filled with brussels net points. Sorrento wheels fill the spaces between the braids.

The triangle at the center is filled with the rosette stitch, made in the following manner: Pairs of close parallel threads are carried across the space at regular intervals. These are crossed at right angle by a second set of threads, making small squares. Twist a thread several times around the small squares to make a foundation for the rosette. Work over this with a close buttonhole stitch, then secure the thread firmly and cut.

To Wash Brown Linens.

Nothing equals hot water for washing the natural tinted brown linens now so fashionable. Boil enough hot water to color the water perceptibly, pour a pint or more of boiled starch in with it (after the hay has been strained out) and rub the dress without using any soap. Rinse, adding more starch to the rinsing water if desired, and dry in the shade.

For Summer Resort Use.

This gown, designed for the sunny days of the approaching season and to fulfill a very useful purpose at a dressy summer resort, could hardly be beaten. The foundation is of a tender ceru, and

A DRESSY SUMMER GOWN

the lace is made with a pattern all over it in black velvet applique, which is most effective. The sketch shows the mode of making, and the belt is of the prettiest chine ribbon possible let into a tasteful buckle.

TRIFLING WITH YOUR HEALTH

Is Like Playing With a Loaded Gun. If You Have Kidney Trouble Attend to it at Once.

It is easy to tell whether your kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored,ropy or stringy, there is something wrong with the kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist church, Spartanburg, S. C., writes:

"For eleven years I suffered with kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Several physicians prescribed for me and I took different medicines, but none of them did me any good. I then began the use of Dr. David Kennedy's Favorite Remedy, and in about two weeks was entirely well."

All druggists sell Dr. David Kennedy's Favorite Remedy in the New 50 Cent Size and the regular \$1.00 size bottles.

Sample bottle—enough for trial, free by mail.

Home Treatment.

TESTIMONIALS:

Having been blind in my right eye for a long time, I then had it fully restored by an operation done by Dr. Clouse. MRS. LIDA ENDINGER, Crystal Springs, O. Thanks to Dr. Clouse, He restored my sight. "I was blind but now I see." Dr. Clouse, specialist of Canton, Ohio, who has the Conrad hotel each Tuesday, restored the sight of my left eye which had been blind for several years. I am 72 years old and can see again as when young.

MRS. JOHN OSTHEIMER, 84 W. Main St., Massillon, Ohio.

Dr. Clouse, Specialist, restored the sight of my right eye by an operation after other doctors had given it up.

ALBERT CLOUSER, New Berlin, O.

Dr. Clouse, Specialist, saved an eye for me three years ago, after a number of doctors, including a specialist of Cleveland, wanted to remove it, and it has given me no trouble since.

AUSTIN KOEHN, Canton, Ohio

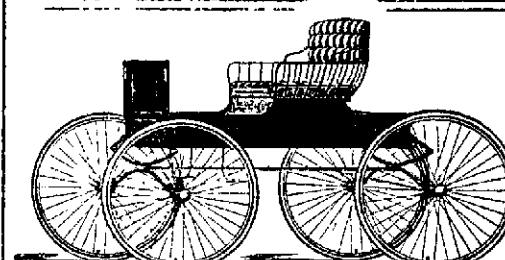

THE WRONG MAN.

Young Woman Stranded at Ellis Island.

Salem, O., April 30.—A telegram was received in Salem yesterday inquiring for Ferdinand Bruckner, stating that his wife was stranded at Ellis Island, and would be deported unless her husband came to her aid. Inquiry developed the fact that Ferdinand Bruckner had lived here several years, but four weeks ago had gone to Pittsburg. Two brothers of Bruckner, however, who live here, declare that the woman at Ellis Island is not the wife of Bruckner. The girl, they say, is Annie Rill, who came from Hungary, where she had been wooed by another Ferdinand Bruckner, a soldier in the Hungarian army, and who, after being discharged, deserted the girl and came to this country.

The climate and crop bulletin of the United States weather bureau for the week ending April 28 is as follows for Ohio: Sudden changes in temperature; heavy frost in north on 24th, no damage; light showers but insufficient; wheat slightly improved but needs warm rains; oats about all sown and coming up well; potato planting and garden making progressing; some corn planted in south; fruit trees beginning to bloom, prospects fair, except for peaches; grass growing slowly.

What Disease Produces Most Misery.
If the amount of misery caused by different diseases could be estimated, it would be found the portion caused by headache would outweigh any other, and perhaps equal all combined. Immediate relief is afforded by Clinie Headache Wafers, perfectly safe, easily taken and do not depress. 10 cents at all druggists.
